Its great powers to heal, have, since then, become fully appreciated by the community, and we allege that the longer it is tried the more certain will its great fame spread. It is not the remedy of a day, got up for the sole purpose of making money; bui, one, which we conceive, will continue to be used when all nostrums have been forgotten. The PETHOLEUM is a Natural Remedy, elaborated in the depths of the earth by a power and agency that laughs to scorn all human composition. It is our duty, when we write about a medicine, that we write raturn—that we say nothing calculated to deceive those who may trust our word or put confidence in our statements. The sick are very apt to catch at any thing that promises relief from dis-ense. A story can hardly be too highly wrought to an-swer the object of guiling or humbugging some of them. Now, we do not desire to do this; we are an axious only that the truth in relation to our Remedy should be told, in order to secure for it a reputation far exceeding any single article of the materia medica.
