Insurance Companies. Drugs and Medicines Mistellaneons. Miscellaneous. Miscellaneons. State Mutual Fire Insurance Company
BRANCH OFFICE, 54 SMITHIELD ST. PITTSPING.

January 1st, 1851.

THE best evidence of the success of the Directors in endeavoring to wake the "STATE MUTUAL FIRE INSURANCE COMPANY" meet the wants of the community, is the unparalleled amount of business which has been done—having issued nearly 4,000 Policies in a little more than seven months; and adding over \$70,000 capital to the company. The Directors are proud to say, that nearly all the property insured is of the safest kind, in small risks, and a large proportion insured for only one year.

Number of Policies issued... 3,933
Amount of gourantee premiums \$45,496 38
Amount of gourantee stock... \$3,500 00
To be deducted from the above the incidental expenses of the office.
To city or country merchants, and owners of dwellings, and isolated or country property, it is believed the company affords advantages in point of cheapness safety and security, inferior to no Insurance Company:

This country.

Conducted on the equitable and greatly improved system of Classification of Risks, excluding all special hazards, insuring only a limited amount in any one locality, thus preclading the frequency and occurrence of large fires, and also, on both the Stock and Mutual plan, it not only possesses the cheappess and accommodation of both methods, but entitles the insured to a participation in the profits.

Tis not more than one year ago since this great remedy was brought before the public, for the relief and cure of disease. Its great powers to heal, have, annot hen, become fully apprecised by the community, and we allege that the longer it is tried the more certain will its great fame apread. It, is not the remedy of a day, got up for the sole purpose of making money; but, one which we conceive, will contain to be used when all nostrams have beer forgotten. The PETROLEUM is a Natural Remedy, elaborated in the depths of the earth by a power and agency that laughs to scorn all human competition. It is our duty, when we write about a medicine, that we write rature—that we say nothing calculated to deceive those who may trust our, word or put confidence in our statements. The sick are very apt to catch at any thing that promises relief from discase. A story can hardly be too highly wrought to an swer the object of gullingor humbugging some of them. Now, we do not desire to do this; we are anxious only that the truth in relation to our Remedy should be told, in order to secure for it a reputation ar exceeding any single arrivele of the materia medics. Plain, unvarnished facts—facts that may be ascertained in our own city and neighborhood, bear ample testimony in favor of the Petroleum.

Second street, between Wood and Smithfield.

On Turesday, afternoon, July 25, 1848, the undersigned were called upon by Messra. Laptencott & Barr, to witness an honest and fair test of one on their Phonix Safes. The furnace being prepared, the Safe was slaced inside thereof, with books, papers and some money; when the door of the Safe was closed and the fire kindled at a quarter past 9 o'clock, and in a short time the Safe was red bot, and continued till haff past 6 o'clock, being about four and a half hours, when the committee expressed their satisfaction that the time occupied with such heaves was sufficient. The furnace was then pulled dawn, Safe cooled, and door opened—the books, papers and money safe. The heat was so great as to melt off the brass mountings. We therefore take pleasure in recommending these Safes to the public, as being, in our judgment, entirely fire proof

The Faculties, for intellectual abilities, moral worth and professional acquirements, will compare favorably with the most distinguished in our country. The Medical Faculty constitutes an anomaly in this or any other country—all of them are able Lecturers and the best of Teachers.

Those who will contemplate our geographical position, and the extent of our population, can have no doubtes to the eligibility of our situation for an enterprise of the kind. As to health, including all seasons of the year, we deny that engalsericity has mase.

The first class of the Law and Medical Departments on this Institute were small, but the gentlemen composing them are talented and in the highest degree respectable—a favorable omes for the future prosperity of the Institute.

That the public may be satisfied of the permanency of this school, we feel it our duty to state, that the Trustees and Faculty farm a wrist in action, which angurs well for its future success; and that the peopliar internal organization which connects them, cannot be interrupted.
