48 IRWIN STREET, TI HAS AN ENTIRELY NEW ACTION—The old Cough Medicines always-sicken the stomach and produce nauses which is more disagreeable than the Cough idealf. This is obviated in this mixture, for it is a pleasant soothing article and it will cure, or the money will be rowning article and it will cure, or the money will be rowning article and it will cure, or the money will be rowning and the cough and the should convince any one of his efficacy. It is the prescription of a regular physician, and has been used by him in his own practice for a number of years, with the most heroic success.

CONSUMPTION—A lady from Steubenville writes, that her daughter had been afflicted with a Cough and expectoration, night sweats, hectic fever, and all the distressing symptoms of consumption, and that after taking two bottles she was entirely cured. A gentleman in Washington county, who had suffered with Ashma and Chronic Cough for eight years, has been entirely releved and the cough removed by the use of half a dozen of bottles of the Pectoral Syrup. A gentleman from Peoria, Illinois, writes that "he knows the Pectoral Syrup to be a good article, for he has used it in his own case and in the cases of members of his family with the most perfect success. A party may, at a moderate annual premium, insurator life, and he survive to reach the age of 60 years, the full turn insured up to \$15,000, will be paid to HIM: or if he dies before reaching that age, the tull sum insured will be paid to his family or legal representatives.

It has become customary in the Atlantic cities for congregations to insure the lives of their Pastors, and on Christmas or New Year's day to make the family a present of the policy. This is certainly an excellent way of showing their regard for their Minister, whose salary in very many cases is scarcely equal to his immediate wants. To the man of family, at his death, it is a consolation beyond expression to know that his helpless little ones are thus provided for. Churches involved, would do well to insure the lives of one or more of the trustees, at whose demise the amount would be applied to liquidate the debt.

PEPHIN:
THE TRUE DIGESTIVE FLUID, THE TRUE DIGESTIVE FLUID,
OF Gastric Juice!

A CREAT DYSPEPSIA CURER,
DREPARED from Rennet, or the fourth stomach of the Ox, after directions by Baron Lismo, the great Physiological Chemist, by J. S. HOUGHTON, M.D., No. 11, North Eighth street, Philadelphis, Pa.
This is a strily wonderful remedy for INDIGESTION, DYSPEPSIA, J.IUNDICE, CONSTIPATION, LIVER COMPLAINT, and DEBILITY, curing after Nature's own method, by Nature's own seems, the Gastric Juice. Half a teaspoonful of this Floid, infused in water, will digest or dissolve Five Pourss ov Roast Berr in About two neuras, out of the stomach.

SCIENTIFIC EVIDENCE!

Baron Lirsio, in his celebrated work on Animal Chem istry, says: "An artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the microus membrane of the stomach of the call, in which various articles of food, as meat and eggs, will be so softened, changed and digested, just in the same manner as they would be in the human stomach."

Dr. Prexita, in his famous treatise on "Food and Diet, "published by Fowlors & Wells, New York, page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.

Dr. Comme, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice, as prominent and all-prevailing cause of Dyspepsia; "and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had recourse to the Gastric Juice, obtained from the stomach of diving animals, which proved completely ancessial."

Dr. Gabara, author of the famous works on "Vegetable Diet," asys: "It is a remarkable fact in physiology that the atomachs of animals, macerated in water, impart to the full die property of dissolving various articles of food, and of effecting a kind of artificial digestion of the famous works on "Vegetable Diet," asys: "It is a remarkable fact in physiology, devotes Or Gastric Juice!

N. B.—All orders directed to Pittsburgh with receive that they still continue the business of Tin Roofing, in all its branches. Their skill and experience in this part of the business. Their skill and experience in this part of the business, a bas hitherto enabled them to give entire satisfaction. And they hope, that by contuning the same policy of using the best materials, and employing skillful workmen, to keep up this favorable impression. If the question of Tin Roofing was new, or just brought before the notice of this community for the first time, we would consider that the importance of the subject would justify us in extending our views on its superior advantages. This, however, is not the case. We shall therefore, confine ourselves to a few remarks. On the 6th day of June, 1844/(hearly seven years ago.) we finished our first job of Tin Roofing in this place. From that up to the present time, we have covered with tin the roofs of the finest, and most costly buildings that have been erected in this county. We have given our views on a previous occasion on the superior advantage of Tin overiron, as a covering for houses. And time, the great tester of all things, has but too clearly proven the correctness of our opinion.

Again, if we place Tin in juxta-position, with Sinte as a covering for houses, we think that the will bear a favorable comparison, with some decided advantages.—These advantages are; that when this sued the roof can be made much flatter—thereby saving materials, in the length of rathers, brick in the gable ends—making the house casy of access in case of a fire, and showing a better finish and appearance. Also, when the is used the gutters are worked in, thereby saving the extra and reavy expense for copper gutters, copper fisshings, &c.,—things indispensible on alter roofs. If further reasons were deemed-necessary, we could offer the experience of our eastern cities up roof what has been advanced, as it is a well known fact that New York and other eastern cities very generally prefer even tin for their most we will leave the subject with thi Mar7 WM.
