The whole is too long a story tor us to preto our readers in full; but it certainly details one, of the most extraordinary, rich, unique, laughable serious, Whig fights that the country has ever witheseed. It seems to be a political quarrel batween the Cooper and Johnston factions in Philasdelphia. Wm. D. LEWIS, Collector of the Port. who is a tool of Gov. Johnston, is accused of appointing and retaining in office a man as weighmaster who can neither read nor write his own name, who cannot spell the name of any vessel which may enter the port, and who is numble to estimate the annual expenses of his department at any given rate per month. Of course every person cannot bear her, but we feel certain that the large Mesonic Hall will be crowded to its utmost capacity. It is now pretty well understood that the Directors of the Pennsylvania Railroad have selected for their Depot, the body of land on Grant street, extending from Seventh along the Canal to Liberty street. We think this is a very judicious selection, and we have every reason to believe that it will meet with the approbation of the business community and citizens generally. The above is the spot that has been spoken of by the up-town folks for a Central Market House. They will now have to seek a new location There is some talk of a meeting of "fil teen Whigs," for the purpose of adopting some measures to prevent the Administration at Wash ington from being totally abandoned by the press of Pittsburgh. The Gazette has dropped Fill-MORE, and now wishes to soup ercede the American as the organ of the Scott Antimasons and Abolitionists in Western Pennsylvania. The Journal is a little too Tylerish to please the active Whig politicians What is to be done? Would it not be advisable for the "fifteen" to issue pro posals for a Fillmore organ in Pittsburgh?

Bishop Hughes in Rome. It was recently stated, with a great deal of confidence, that Archbishop Hughes, of New York city, was to be made a Cardinal for this continent, The New York Herald, of Sunday, however, says: New York Herald, of Sanday, however, says:

"It appears that when this very important question with respect to advancing Archbishop Hughes came up before the Pope and the College Propaganda Fidei, some of the members of that holy counsel stated that the affair was of a very grave and sorious kind, and that, in view of the healtlites which had arisen in England at the elevation of Cardinal Wiseman, it would be quite proper to enquire of some intelligent American what course ought to be adopted. Then this surgestion, a proposition was made ed. Upon this suggestion, a proposition was made to apply to Mr. Cass, our Charge at Rome, as to what he thought of the necessity of creating this Cardinal for the spiritual welfare of the United States. Mr. Cass, being anxious to make such a reply as would be satisfactory to those most interested in the welfare, nolltical, and spiritual, of the propole at large velfare, political, and spiritual, of the people at large, very properly replied that on such a question he thought the various highly intelligent bishops on this continent might be consulted to advantage. The continent might be consulted to advantage. The college appreciated this happy suggestion, and acted upon it accordingly. The bishops on both sides of the Alleghanles were applied to forthwith for their opinions, which, as we learn, are adverse to the election of our friend, the Archbishop, to this distinction. They view the matter in a practical light, and believing that it will be a useless office in the United States, they have just sent out their objections in such a shape as will decide the question against the Archbishop, when the subject comes up again before the vacred college. The documents being on the way, we shall have, after a few weeks, the fall decision, and the return of Bishop Hughes to this dioceae, from which he has been missed for two

his diocese, from which he has been missed for two or three month a past." The It must be evident to every reader of the Whig papers of Pittsburgh, that WHITE, of the Gazette, is alraid of REDDLE, of the Commercia Journal. Another fact is equally evident, that both are afraid of BIDDLE, of the American !-The proportions of the latter dignitary are quite as formidable as those of the renowned Sir John Fallstaff, who is Biddle's beau ideal of honor and he members.

We take more than ordinary pleasure in directing the attention of our citizens to the advertisement of Mr. John M. Rosests, who has opened a new watch shop at No. 16, Fifth street, near Market. Mr. R. is favorably known to many of our citizens as having for a number of years been toreman in the watch shop of one of our largest and most reputable jewelry establishments. He is beyond all doubt, one of the best workmen in the city, and we can pass our word that every thing he indertakes will be attended to promptly and properly. In connection with his regular business, Mr. R. keeps for sale a well selected variety of jewelry, which is worthy of the attention of purchasers.

THE PRESIDENTIAL ELECTION and the House of tatives .- In case there is no choice of President by the people, says the Detroit Free Press, the election goes to the House of Representatives. In that body, each State gives one vote to the cand date upon whom a majority of the members agree. Elections have been held in the following States, which we assign to the party having a majority of

Whig. Vermont Massachusetts Missouri Florida Connecticut New Jersey

South Carolina -8. Of the number, New Hampshire, New York and Rhode Island are balanced. Of the remaining 14 States, the whige had, in the last Congress, majorie ties in only two States, the Democrats in 9, and two were equally divided. Of these the whigs may gain Levacca to El Paso, &c., as being nearer, better and Tennessee, California and Maryland-making ten in all. Leaving out the States already tied, 16 States will be necessary to effect an election. It will therefore be seen that the only chance for the whige to elect a President, is to secure a majority of the votes at the Presidential election.

Philadelphia Spring Business. We copy the following gratifying account of the Spring business in Philadelphia and on our Canals and Railroads from Bicknell's Reporter: The business world continues quite animated.—
The Pennsylvania trade is now in full activity. The forwarding houses were never more fully employed. The increase of tolls on the Pennsylvania Railroad for the month of March, over the same month of last year, amounted to upwards of \$25,000. The increase for the same month on the Philadelphia & ocrease for the same month on the Philadelphia clumbia Railroad, amounted to 10,673,000 lbs

These figures tell a most gratifying story. We are assured, moreover, that the freights are heavy both ways, at Pitteburg as well as Philadelphia. GEN. Special Motices. The Great California Plant.

The Great California Plant.

[T] Canchalagua, the great medicinal herb of California, is a new and invaluable addition to our Pharmacopenia. A Robinson, Esq., author of "Life in California," Hon. J. C. Jones, long a resident there, and other eminent travelers testify to the wonderful success with which it is used by the natives as a cure for Pulmonary and Bilions complaints. By combining it with Liverword and Tar, the best remedies for Coughs, Colds and Catarrhal affections known, prior to the addition of this Plant to our Herbarium, a medicine has been produced, which, if we are to believe the testimony of scores of convalescent patients, will cure Consumption itself, in its earlier stages. We refer to Dr. Rager's Syrup of Liverwort, Tar and Canchalagua. The public are not asked to take its virtues upon trust. The Pamphlet in the hands of Agents explains the Philosophy of its operations, and gives the proofs of its success. [apr18] Who would not ruber enjoy the pleasures of bealth and the agreenble consciousness of well-being, to the griping pains of disease—the bitter continuance of ill-health, and the chilling thoughts of never recovering!

But, of all disease—the bitter continuance of ill-health, and the chilling thoughts of never recovering!

But, of all disease, who is not most annious to escape a disease of the Lungs! The very idea of falling a yietim to Consumption; sends a tremor to the heart-strings of life. But, oh! how joyous the thought that Lupz and Health still our own, when just before, Despair had spread her dark canvass over us.

Such, kind reader, are the pleasurable sensations experienced by hundreds, whe, by the use of Dr. Wistars! Balsam of Wild Cherry, have this dire disease slowly, but surely, driven from their system—and health, rosy health, again restored to their languishing bodies.

"This may certify that I have been cured of an old chronic cough by the use of four bottles of Petroleum. The cough attacked me a year ago last December, and I had lost all hopes of getting well, as I had taken the udvice of several physicians without any benefit. I was benefitted almost instantly by the use of the Petroleum. I coughed up, during the use of the Petroleum, a hard rubtannes resembling bone.
