AND/ODD-FELLOWS DEPOT,

NO. 80, FOURTH STREET,

Sign of the Bee-Hive.

THE substiters are in the regular receipt from the

East of the greatest variety of FANCY GOODS

ever presented by a single-establishment to a Pittaburgh

public. All persons having business with the undersigned. A cither as Public Accountant, Instructor in Book-Keeping, or otherwise, will find him at the Pittsburgh Commercial College, from 9 till 11 o'clock, A. M., and from 2 till 4 o'clock, P. M.
Merchants in want of competent Book keepers can be supplied by calling on JOHN FLEMING, apro Principal Instructor in the Science of Accounts.

James Rees. Coughs and Colds Cured in 48 Houss.
INOE the introduction of this new compound, Cough
3 and colds are cured in a very short time. We will
surrant Dr. Reyser's Pectoral Syrup to cure cases o
loughs, Colds, Bronchitis, Laigugitis, in less time and
ta cheaper rate than any other medicine ever discovered. 100 BBLS. TAR;
20 de Spirits Turpentine;
On consignment and for sale by F. R. DRAVO, THE best evidence of the success of the Directors in endeavouing to take the "STATE MUTUAL FIRE INSURANCE" (COMPANY" meet the whate of the community, is the unparalleled amount of business which has been done—having tested FURNITURE MANUFACTURER. MARLETON TRIMMINGS .- A. A. Mason & Co. hav TARLETON TRIMMINGS.—A. A. Mason & Co. have I received per express a large assortment of Tarleton Trimmings. Laces. Edgings, &c. [apr23]

TOSIERY. A. D. GLOVES.—New opening at A. A. Mason & Co. &; a full and complete stock of Rostery and Tilores.

WHOUGHT. COLLARS. AND UNPES.—Received II. Per express, et A. Mason & Co. s, a new assortment of Wrought Collars and Capes.

INED PARASOLS.—A. A. Mason & Co. are now a subbling a choice lot of Lined Parasols, of the latest styles. Ware-rooms 97 and 99. Third street.
W. W. respectfully informs his infends and customtributance: command, is the unparalleled ambint of business which has been done—having issued nearly 4,000 Policies in a little more than seven months; and adding over 870,000 capital to the company. The Directors are prond to say, that nearly all the, property haused to the safest kind, in small rake, and it large proportion. red.
IT HAS AN ENTIRELY NEW ACTION—The old
lough Medicines always sicken the stomach and proude nausea which is more disagreeable than the Cough
uself. This is obviated in this mixture, for it is a pleas-Secretaria as seen above many and the control of th James Bees,
ENGINE BUILDER AND MACHINIST,
(Successor to Robert Wightman.)
Corner of Liberty and Water streets, Pittburgh,
Will build, and finish to order, on the shortest notice, and most accommodating terms, Steam Entires and Machinery, and Castings, of all descriptions, the lowest prices. ever presented by a single establishment to a Pittsburgh public.

The Gentlemen's Furnishing Department is plentifully supplied with a variety of superb and delicately wrought articles of dress. The variety is entirely too great to enumerate in a moderate space; we must, therefore, direct the public to an investigation of the Stock itself. All that we can say in this connection is, that at our Establishment the gentlemen of tasts can be supplied with any article in our line, manufactured out off the best materials and by the most experienced hands. We solicit an examination of our stock; it composes a variety which challenges comparison.

A large lot of Fire Silk and Linen Shitts; Pancy Stocks and self adjusting Grasatt; flower and Hosiery of various kinds, and in fact every article of comfort or luxury which a gentleman of good tasts would fancy.

Odd-Fellows' and Masonic Regalia constantly on itself. This is obviated in this mixture, for it is a pleasant soothing article and it will cure, or the morey will be refunded. The evidence in fayor of this medicine in our city, from our own citizens, should convince any one of the efficacy. It is the prescription of a regular physician, and has been used by him in his own practice for a number of years, with the most heroic success.

CONSUMPTION—A lady from Steubenyille writes, that her daughter had been afflicted with a Cough and expectoration, high sweats, heetic fever, and all the distressing symptoms of consumption, and that after taking two bottles she was entirely cured. A gentleman in Washington county, who, had suffered with Ashma and Chronic Gough for eight years, has been entirely relieved and the cough removed by the use of half a dozen of bottles of the Pectoral Syrup to be a good article, for he has used it in his own case and an the cases of members of his family with the most perfect success.

It is own oy that Chrarest Medicines. Now known.—It is put up in half pint bottles at 50 cents each, or six bottles of the Section Syrup to the a grown of the same of the section of the same of at the lowest prices.

Pitrisauron, April 8, 1851.

I cheerfully recommend to the public and my former customers, my successor, Mr. JAMES REES, a competent and able mechanic, capable of building Engines and Machinery in the most satisfactory and approve style. [aprily] ROBERT WIGHTMAN.

dec30 / No. 62 and 64 Market street.

TMBRUIDERHES-!!—Received per express, a large will be paid to his family or legal representatives.

It has become customery in the Alannic cities for congregations to insure the lives of their Pastors, and on Christmas or New Year's day to make the family a present of the patiety. This is certainly an excellent way of showing their regard for their Minister, whose salary in very many cases is scarcely equal to his immediate wants. To the man of family, at his death, it is a consolation beyond expression to know that his helpless little ones are thus provided for.

Churches involved, would do well to insure the lives of one or more of the trustees, at whose sidemise the amount would be poplied to lightlate the debt.

Explanatory pamphets and information given gratis, at the Banking House of WM A. HILL & CO., nov.29.

On Phyladophia, Incorporated by the Legislature of Pennsylvania, March, 1843; Charter Pepetual; Capital Study. Phyladophia, Incorporated by the Legislature of Pennsylvania Capital Stud that trey still equalings the business of Tin Roofing, in all its branches. Their skill and experience in this part of the business, has hitherto enabled them to give entire satisfaction. And, they hope, that by communing the same policy of using the best materials, and employing skillful workmen, to keep up this favorable impression. If the question of Thi Roofing was new, or just brought before the notice of this community for the first time, we would consider that the importance of the subject would justify us it, extending our views on its superior advantages. This, however, is not the case. We shall therefore, confine ourselves to a few remarks. On the 6th day of June, 1844, (nearly seven years pro.) we finished our first, job of Tin Roofing in this place. From that tips other present time, we have covered with tin the roofs of the finest and most costly buildings that have been erected in this county. We have given our views on a previous occusion on the superior advantage of Tin Roofing in this place. From the great tester of all things, has but too clearly proven the correctness of our opinion.

Again, if we place Tin it juxta-position, with Slate as a covering for houses, we think that its will hear favorable comparison, with some decided; advantages—These advantages are, that when this is used the roof can be made much flatter—thereby, saving, materials, in the length of railers, brick in the gable ends—making the house easy of sceess in case of a firet, and showing a better finish and appearance. Also, when it is used the guitters are worked in, thereby saving the extra and reasy expense for copper guiters, copper flashings, e.c., whings indispensible on slate roofs. If further reasons were depined necessary, we confeder the experience of our extern cities in proof what has been advanced as an it is a well known fact that New York and other eastern cities in proof what has been advanced and costs and and an entered the cities in proof what has been advanced. will digest or dissolve Five Populs of Roles Brey in About two hours, out of the stomach.

SCIENTHIC EVIDENCE!

Baron Liend, in his celebrated work on Animal Chem intry, says: "An artificial Digestive Fluid, analogous to the Gastric Julice, may be readily prepared from the macous membrane of the stomach of the calf, in which various articles of food, as meat and eggs, will be so softened, changed and digested, just in the same manner as they would be in the human stomach."

Dr. Perrina, in his famous treatise on "Food and Diet," published by Fowlers & Wells, New York, page 35, states the same great fact, and describes the method of proparation. There are few higher authorities than Dr. Percira.

Dr. Counz, in his valuable writings on the "Physiology of Digestion," observes that, "a dimination of the due quantity of the Gastric Julice is a prominent and all-pre vailing cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had recourse to the Gastrio Juice, obtained from the stomach of living animals, which proved completely successful."

Dr. Gaalam, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology that the stomachs of animals, macerated in water, impart to the field the property of dissolving various articles of food, and of effecting a kind of artificial digestion of the firm in no wise different from the natural digestion of the firm in the wise different from the natural digestion of the firm in the wise different from the natural digestion of the firm in the wise different from the natural digestion of the firm of the form of the form of the firm of a the firm of the firm of a the firm of the firm of the firm of the firm of a the firm of A for sale low by

B. A. FAHNESTOCK & CO. part to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestino of them in no wise different from the natural digestive process."

Dr. Shnon's great work, the "Chomistry of Man," [Leo & Hanchard, Phila, 1846, pp. 32].-9] says: "The discovery of PEPSIN forms a new era in the chemical history of Digestion. From recent experiments we know that food is dissolved as rapidly in an artificial digestive of Digestion. From recent experiments we know that food is dissolved as rapidly in an artificial digestive fluid, prepared from Pepsin, as it is in the natural Gastric Juice itself."

Professor Dunotison, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject. His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals, are well known. "In all cases," he says, "digeation occurred as perfectly in the artificial as in the natural digestions."

AS A DYSPEPSIA CURER,
Dr. Houstron's preparation of PEPSIN has produced the most marvelous effects, curing cases of Debility, Emeciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the very verge of the grave. It is impossible to give the details of cases in the limits of this advertissment—but ambenticated certificates have been given of more than TWO HUNDRED REMARK.

ABLE CURER, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the earlies of tendency to billous disorder, Liver Complaint, Fever and Ague, or badly treated Fever and Ague, and the swil effects of Quinine, Mercury, and other druga upon the Digestive organs, after a long sickness. Also, for excess in eating, and the loo free use of ardent spirits. It also reconciles Health with Intemperance.
