Ayer's Cherry Pectoral I FOR THE CURE OF COUGHS, COLDS, HOARSE-MESS, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA and CONSUMPTION.

Among the numerous discoveries Science has made in this generation to facilitate the business of life, in-crease its enjoyment, and even prolong the term of haman existence, none can be named of more real value to mankind, than this contribution of Chemistry to the

Hoaling Art. A vast trial of its virtues throughout this broad country, has proven beyond a doubt, that no medi-

cine or combination of medicines yet known, can so cine or combination of measures yet known; can co-surely control and care the numerous varieties of pul-monary disease which have litherno swept from our midst thousands and thousands every year. Indeed there is now abundant reason to believe a Remedy has

at length been found which can be relied on to cure the most dangerous affections of the lungs. Our space here

will not permit us to publish any proportion of the cures effected by its use, but we would present the following

opinions of eminent men, and refer further enquiry to the circular which the Agent below named, will always be pleased to furnish free, wherein are full particulars, and indisputable proofs of these facts.
