The water in our proaches, is becoming duite low, sufficient only for the rivers is becoming quite low, sufficient only for the small class of boats. In reviewing our Markets, we find but little change to note. In Breadstuffs we see no per-ceptible change since our last. Transactions in Bacon here.

Theatre-Mr. and Mrs. Barney Williams .nd Provisions have been to a moderate extent; the JAMES M'KENNA, Auctionser ing to crowded and fashionable houses; and although this is their third week, there appears to be no abatement in the audiences. We are not in the least surprised, for they are without a solitary exception the most comic team we ever had in Pittsburgh. They fully prove our assertion by the way they draw. Barney's brogue is rich, with a handsome face and sweet voice; and as for as his dancing, we can only say it is real Irish. Mrs. Barney is truly an excellent actress, doing full justice to anything she enacts. Her dialects and impersonations are truly delightful. As their stay cannot be prolonged beyond Saturday, we advise all who have not availed themselves of a visit, to go at once.

Some of our dealers, however, refuse to buy at these rates. By a careful examination of the markets East, North and West, we find that wool is held higher in this market them any other, as will be seen:— A BEAUTIFUL CLEAR SKIN.

How we all admire a clear, heatulfal, white akin, and a rosy colored cheek. How often do we see persons, not possessing this "desideratum so devoutly to be wished," resorting to cosmetics, lotions, weshes, paint, and coloring materials, to restore to them a semblance of what disease has deprived them of, and that too, with great injury to the skin. Bull's Saraparilla is the best cosmetic known. It beautifies the skin, by removing every particle of morbid and diseased mater from the blood, making it pure healthy and vigorous; giving activity to every minute vessel, and changing the yellow and dark countenance to the bloom and freshness of youth. Ladies, abandon the use of paints and mixtures, and use Bull's Saraparilla, the only effectual remedy. "A word to the wise is sufficient;" and a hint is enough for the Ladies. I have examined the prescription for the preparation of John Bull's Sarsaparilla, and I believe the combination to be an excellent one, and well calculated to produce an alterative impression on the system. CROUP, ASTHMA and CONSUMPTION.

Among the numerous discoveries Science has made in this generation to facilitate the business of life, in-crease its enjoyment, and even prolong the term of human existence, none can be named of more real value to mankind, than this contribution of Chemistry to the Healing Art. A vust trial of its virtues throughout this broad country, has proven beyond a doubt that no medicine or combination of medicines yet known can so surely control and cure the numerous varieties of pul-monary disease which have hitherto swept from our midst thousands and thousands every year. Indeed there is now abundant reason to believe a Remedy has at length been found which can be relied on to cure the most dangerous affections of the lungs. Our spacehere will not permit us to publish any proportion of the cures effected by its use, but we would present the following opinions of eminent men, and refer further enquiry to the circular which the Agent below named, will always be pleased to furnish free, wherein are full particulars, and indisputable proofs of these facts. and indisputable proofs of these facts.
