We mentioned the fact on Friday morning that It will be seen that no change has taken place n our money market; and we do not note any twelve men were drowned at Park's Bar, on the material change in the eastern markets. Coin continues to be exported largely, and exchanges are consequently high. The transhipment of specie to so great an extent, is owing more, per-hume to the greatly inchessed amontity of cold haps, to the greatly increased quantity of gold to within five or six inches of the gunwales that which we have been receiving for some time as soon as the boat was started from the shore which we have been receiving for some time past, than to any other circumstance; and so long as it shall continue to reach us in such large quantities, we may reasonably calculate that it will be one of the principle articles of export with us, the same as action, tobacco, who were drowned were either members of the

Shoan-Dear Sir --Some filtern years ago one of my feet was severely injured, in consequence of the foot swelling very large, and being romarkably paindl, most of the time I could on y hobble about, with the assistance of a staff, and not being able to endure a shoe on the foot I wore a moceason. During the first fourteen years'sufforing, I followed, striedly, the advice of many celebrated physicians-last year, used fourteen bottles of Dr. Trask's Magnetic O intment-all, however, failed to afford permanent relief Last November I con-cluded to have the foot taken of -o which my friends objected. Finally, about the first of December, I was induced to apply your Woudeful Ontment, and in less induced to any shoes without any inconvenience, and now get about like other men: February 10, 1849.
