CITY INTELLIGENCE.

Allegheny Bridge Case.—On Saturday, in the Court of Common Pleas, Messrs. Alden and Woods moved for a rule on the president, managers and company of the old Allegheny Bridge, to show cause why the following documents should not be produced on the trial, which will take place on the 11th of August next.

1st. Book containing names of all those who have commuted their tolls, and for what amount, from the year 1849, when the bridge was built, until now.

2d. Book containing the regulations or by laws regulating the amount of toll to be charged and taken for footmen, horsemen, and all others, from whom toll was to be exacted, with the respective rates of toll, from 1819 until the present time.

3d. Book containing amount of capital stock subscribed, amount expended, income, expenses, dividends, reserved fund, and its disposition.

4th. Book showing resolution authorizing females to cross the bridge toll free.

5th. Book showing resolution excluding James Todd, the relator, from the benefit of the by-laws commuting the rate of toll.

Yesterday, his Honor Judge McClure made the following order:

And now to-wit: 28th July, 1851, after argument said rule made absolute, and the court of Common Pleas ordered the defendants to produce said books and papers, as prayed for, at the trial of said issues.

From the record. GEO. S. HAYS, Prothy.

Habeas Corpus.—A writ of habeas corpus was filed yesterday afternoon before his Honor, Judge Lowrie, and occupied his attention till a late hour. From the evidence it appeared that about three years ago Mr. Cavanaugh, a respectable store keeper and pedlar of this City, was accidentally killed by the discharge of a gun in his wagon. He left behind him a widow and five children, three of whom were boys and two girls. One of the boys was scalded to death in the house of his mother, another is now in jail on a charge of burglary, and the third has wandered away. The two girls, who are both of tender years, were taken in charge by two charitable ladies of Ohio.

The uncle of the children, Michael Cavanaugh, was alleged to have them within his control.

Several witnesses testified that Mrs. Cavanaugh, the Relator and widow of the deceased, drank so much as not to be able to take care of her children.

The writ was dismissed, Judge Lowrie deciding that inasmuch as the children were in custody of parties in Ohio, and as the Respondent had not placed them there, he had no jurisdiction in the case.

☞ The Chicken Factory of John Berlin & Dr. Gross, near East Liberty, was entirely blown down by the storm on Saturday night, and about 2000 fowls killed. The building was one story high and about 200 feet in length.

About 1000 lights were broken in the windows of the City Alms House, 9 miles up the Monongahela.

A large field of fine oats, belonging to Mr. F. C. Schenck, in Lower St. Clair township, valued at $400, was completely destroyed. The grain was all taken off the stalk as nicely as if it had been done by a threshing machine.

Altogether, the storm was the most severe that has, perhaps, ever visited this county. Trees were torn up and branches twisted off, and vegetation generally suffered very much.

Dr. O'Reilly's Irish Evenings.—To-morrow night our citizens will have an opportunity of enjoying one of the richest treats they have ever had in Pittsburgh, by attending Dr. Henry O'Reilly's humorous Irish Evenings. The lovers of genuine Irish eloquence, of real soul-stirring wit, and of chaste and beautiful language, should not miss this pleasing entertainment. The fame of Dr. O'Reilly as an orator, as a chemist, and as a wit has been heralded far and wide; and from our personal acquaintance with him, we can recommend him as a gentleman of refined and polished manners, possessing a brilliant intellect, fully developed by a thorough education. He has reduced his tickets to such a price that every one can attend.

Opening of the Ohio and Pennsylvania Railroad.—The President of the above Company has issued cards of invitation to the members of the Select and Common Council, inviting them to be present at the opening of the Railroad on Wednesday next. The cars will leave the Federal street station, Allegheny, at 10 o'clock, A. M., and will return in the afternoon. The Councils have agreed to attend in a body; and from what we learn we presume there will be a large attendance at the celebration of our citizens generally.

The Railroad Resolutions.—In the Select Council, last night, the resolutions from the Common Council, in regard to the Pennsylvania Railroad occupying Liberty street; calling upon the President of the Ohio and Pennsylvania Railroad for information respecting the bringing of said Road into Pittsburgh; and in favor of the Pittsburgh and Steubenville Railroad, were all read and adopted unanimously.

The Late Storm.—Accounts from all quarters state that the storm on Saturday night committed great ravages in the country, as well as in the city. The glaziers will have, as by the other storm they had, a great improvement in business, as an almost incredible amount of window glass has been broken. We are informed that the Alms House alone there were a thousand panes smashed.

☞ To all shippers who have goods of any description to transport between this and Hollidaysburg, or intermediate ports on the Portage Railroad or Canal, we would recommend Messrs. C. A. McAnulty & Co. of the Merchants' Way Line, as being gentlemen who fully understand the wishes of the people in sending off goods with promptness and dispatch. They have a boat leaving daily at 6, P. M. See advertisement.

Accident.—Three little girls were playing in a wagon stand near the Fourth Street Road, on Sunday, when some boys came along and gave it a push, starting it over a bank. The wagon upset, and the children thrown out, one of them having its eyebrow knocked off and otherwise injured. The others escaped unharmed. Fears are entertained that she will lose her eye.

☞ The name of E. C. Mathews, as one of the Vice Presidents of the "Bigler Club," was inserted by mistake in our report of the proceedings of the meeting in yesterday's paper.

John A. Ackerman was on the committee to report officers, not Hen. Ackerman, as stated in the printed proceedings.

☞ Mrs. Jane Adams yesterday made information against Jane Reed, for disorderly conduct in throwing water, &c. on her child. She was fined one dollar and costs.

Miss Adams also made information against the husband of Mrs. Reed, for surety of the peace. He was held to bail.

The International Magazine.—W. C. Wall, 85 Fourth street has received the August number of the above popular and well conducted monthly. It is filled with its usual variety of reading matter.

Broke Down.—A pop wagon belonging to Mr. Johns broke down yesterday on Smithfield street, near Fourth. The axle-tree and a few bottles were broken—that's all.

Rudeness.—Some three or four draymen drove through the procession of Orphans, yesterday evening, while they were crossing Wood from Fifth street, endangering some of their lives.

☞ Isaac Rutherford was yesterday held to bail by Alderman Steel, for keeping a ferocious dog.

☞ Four subjects before his Honor yesterday morning—two of whom were committed.

☞ Counterfeit three cent pieces are in circulation in Louisville.

Braddock's Field Property.

PERSONS desiring beautiful, healthy, historic and cheap location for country residences, are invited to the elevated and picturesque Braddock's Field, which is now being sold in small parcels, on the most favorable terms. Eighty-five acres have been thus sold this season, to several hundred individuals, none of whom are now improving by buildings, &c. For advantages of every kind but particularly of access from the city, the place is entirely unrivalled. Three grand thoroughfares run through it—to wit: the Monongahela River; the Pittsburgh and Braddock's Field Plank Road, which is now being finished, and the Pennsylvania Central Railroad, on which the Cars will be running eastward, from Pittsburgh, in far, by next Fall. Rest assured that every few hours, Omnibusses will soon travel the Plank Road; and the Cars will always stop with and for passengers.

I am staying for the summer at the Farm, where I shall be ready to show persons the grounds, and my plan of operation to them. Visiters can be accommodated at the Mansion House as at a Hotel.

To the Deaf.

DEAFNESS, noises in the head, and all disagreeable discharges from the ear, speedily and permanently relieved without pain or inconvenience, by Dr. HARTLEY, Principal Aurist of the N. Y. Ear Surgery, begs to announce his return to Pittsburgh. The number and importance of the cases under his care, within the last year, and the gratifying amount of success which attended his treatment, have induced him to expedite his return. His stay, however, will depend much upon circumstances, and it will be advisable for those who wish to consult him, to make an early call.

He may be consulted, until further notice, in Allegheny City, second brick dwelling beyond the school house on the Perrysville road.

Thirteen years close and almost undivided attention to this branch of special practice has enabled him to reduce his treatment in a degree of certainty, and to find the most confirmed and obstinate cases yield by a steady attention to the means prescribed.

The following testimonials are submitted with confidence. They will show at least in what estimation his professional qualifications are held by some of the most distinguished medical men in the country.

"I have had the pleasure to meet Dr. Hartley in practice, and have been led to form a favorable opinion of his character, both in the profession and as a gentleman.
W. PARKER, M. D.,
Professor of Surgery, &c.

"His professional abilities will be duly appreciated by those who place themselves under his care.
JOHN WHITAKER, M. D.,
Professor of Anatomy, &c.

From my intercourse with Dr. Hartley, I have found his depo. tment correct and gentlemanly."
VALENTINE MOTT, M. D.

"It is a pleasant duty to give my testimony in favor of the treatment adopted by Dr. Hartley for the cure of deafness. The application is unattended by pain or inconvenience, and its effects almost instantaneous.
H. P. HARDMAN,
Counsellor at Law, 23 Chambers st.

"We have known several cases of partial deafness treated by him with the most happy results. Dr. H. is a scientific gentleman and can produce testimonials of the highest order of his ability and success in this difficult branch of the medical profession."—*Globe.*

"Persons afflicted by diseases of the Ear, are recommended to pay a visit to Dr. Hartley, Autist, at No. 99 Arch street, above Third. He is a well educated professional gentleman, having for a particular attention, diseases affecting hearing, has acquired from his skill and experience better means of coping with these distressing affections than those generally possessed by physicians in general practice."—*Dispatch.*

A CARD.

THE PENNSYLVANIA RAILROAD COMPANY, no doubt, with that regard for the public interests which so eminently distinguish all their operations, advertise that the "canal cannot be in working order for six weeks."

We take pleasure in informing that Company, and we know how much they will be gratified by a knowledge of the truth, that the injury to the canal is not so great—that all damages will be repaired by to-morrow—except some injury at Piper's Dam, and Mill Creek, which will require a week more.

We are, for the present, using the Railroads between John-town and Philadelphia, and are prepared to receive freights through in FIVE DAYS, at the rates of the Railroad Company.

On Monday, 28th instant, we shall receive and ship by canal, at the low rates heretofore charged.

PATENT METALLIC BURIAL CASES.

THE subscribers having recently made arrangements with the Patentee of this new and valuable invention for the manufacture and sale of the article in the West, they having been manufactured heretofore exclusively in the East, where they are superseding the use of wooden coffins, take this method of informing the public, that they are now manufacturing eighteen different sizes of the modern Sarcophagus, varying in length from 22 inches to 8½ feet, with width and depth suitable for bodies of ordinary size, and for those who desire space for cushioning, or for bodies of unusual dimensions, have several sizes deeper and wider. This invention now coming into general use, is pronounced one of the greatest of the age. These BURIAL CASES are composed of various kinds of metals, but principally of iron.

They are thoroughly *enameled* inside and out, and thus made impervious to air and indestructible. They are highly ornamented, and of a classic form, are light and portable, while they combine the greatest strength which metal is capable of, in a given quantity.

When properly secured with cement they are perfectly air tight, and free from exhalation of offensive gases They cost no more than good wooden coffins, and are better then any other article in use, (of whatever cost) for transportation, vaults or private interments, as has been proven by actual experiments, and certified to by some of our most scientific men; also, by the Honorable Henry Clay, Daniel Webster, Lewis Cass, and other distinguished Senators who have witnessed their merits, and whose letters, together with other evidences of their worth, may be seen in our Agents' Burial Case Depot, No. 374 Main street, three doors above Ninth, where we intend to keep on hand at all times, such a stock of all sizes as will secure prompt attention, and will suit the most diversified tastes.

We invite the attention of the public, and of undertakers particularly throughout the west, to an examination of the article, and request them not to rely upon the representations of mule-makers in not using the article, who's interest it would be to misrepresent them.

IT is put up in quart bottles, and contains the strength of SIX TIMES as much pure Sarsaparilla as any similar preparation in America. Price $1 per bottle, or six bottles for five dollars.

It has been a well established fact for years past, that Sarsaparilla, when pure and properly prepared, was the only true panacea for all diseases originating from an impure state of the blood, the use of mercury, intoxicating drinks, evil habits in youth, imprudence, &c. We boldly assert that JOHN BULL'S FLUID EXTRACT OF SARSAPARILLA is the only preparation before the public that is prepared on strictly scientific principles, and of uniform strength. The Sarsaparilla is purchased without regard to price, and every pound, before being used, is subject to the strictest chemical tests, and its genuineness ascertained before being used!

Bull's Sarsaparilla also contains the virtues of several other valuable medical roots, together forming the best compound, and producing *the greatest curative agent in the known world!*
