Organization of the Pittsburgh and Steu benville Railroad. It will be seen by the advertisement of the Board of Incorporators of the Pittsburgh and Steubenville Railroad, that an election for twelve Directors of said Road will be holden in the Rooms of the Board of Trade, in this city, on Thursday, the 21st day of August, inst., at 10

This shows that the people are determined to push forward this great work without any unnecessary delay. The right spirit now prevails. and if active Block Committees are appointed to solicit subscriptions, enough money can be raised in one week to build the road. There is no mistake about this matter.

The Administration of Gov. The productiveness of the public works is one of the points upon which they seem most to congratulate themselves, and which they contend is one of the plainest proofs of a wise and efficient government. But all the claims they can produce to show that they have contributed an iots to this result must be as worthless as a shadow They have had no hand in controlling the affairs of the Canal Board for the last three years; and in this way only could they have accomplished any thing in favor lof our public works,

if they had had the power. It is true that, as orderly, and peaceable, and reflecting citizens, (if they ever do any thing of this kind,) they might have added something to the large amount secured by Democratic energy and perseverance. They might have abstained from the continua growl that seems almost involuntary with them, n relation to the business of the country: and thus have given more confidence to business men, and a livelier impetus to trade. But they did not perform even this small part; and consequently, as a party, have had no hand in causing our public works to be so handsomely pro-They tell us, also, with high exultation, tha

Assuredly to stop the payment of the State interest in specie, unless it were obtained at a high premium; derange all the monetary affairs of the State; induce private and public extravagance -by this means opening the way for another "re-issue" by the next Legislature; and thus arrive again at that beautiful order of things which existed during RITNER's administration, and in which this same WM, F. There can be no delusion in their ainds, no wavering in regard to principle, and with them there can be no word of promise to the ear which it is determined shall be broken to the hope.

We think it were well, therefore, for our oponents to place themselves upon some other grounds on which to urge their claims to the onfidence of the People. They cannot stand upon these: because the are too plainly and indelibly marked on the acts of the administration of FRANCISR. SHUNK, the like of whom we never may look upon again.

THE ISSUE FAIRLY STATED. The New York Herald in the following para-

PENNSYLVANIA—COL. BIGLER AND GOV. JOHN-STON.—The lines of demarcation between Col. Bigler, the democratic candidate for Governor in Pennsylvania, and Gov. Johnston, re-nominated lately at Lancaster, as the whig candidate, are sacred to the true, warm-hearted Southernor, as now pretty distinctly drawn. Col. Bigler has openly declared himself in favor of the compromise the farmer of his own Commonwealth. If is especially declared himself in favor of the compromise the farmer of his own Commonwealth. If is especially declared himself in favor of the compromise the farmer of his own Commonwealth. It is especially declared himself in favor of the compromise the farmer of his own Commonwealth.

Glorious Old Virginia. Our talented friend Col. Hutter, of the Easton Argus, who has been spending some time in the vicinity of Lynchburg, Va., writes as follows in reference to the feelings of the people of the noble Old Dominion :

"It certainly gratifies the pride of Pennsylvania to hear his native State so well spoken of, as it is, in all circles, by the people of this region. Our glorious old Commonwealth has so gion. Our glorious old Commonwealth has so nobly stood by the rights of the South, and so boldly sustained and upheld the principles of the National Constitution, that her reputation is as the farmer of his own Commonwealth. Just so think the rankest to decide; between good faith to the compromise ses and renewed war upon glavery.
