At a meeting of the State Central Committee held at Bedford July 23, 1851, it was Resolved, That the chairman of cach count committee in the State be requested to furni name and address to the chairman of the State Central Committee, at Harrisburg, with

publish the above. DEMOCRATIC NOMINATIONS IN OHIO The gallant Democracy of Ohio have covered themselves with glory. The nominations made by the State Convention, which met in Colum-

bus, on Thursday, are unquestionably the best nominees are not only talented, unflinching and radical Democrats, but they are devoted friends of the Union and are untinetured by the incendiary enirit of abolitionism. We entertain

For Governor, the present incumbent, Judge Wood, was re-nominated by acclamation, which fact at once shows that the people of Ohio have full congdence in his integrity and patriotism. For Lieut. Governor, Col. William Medall, of Fairfield county, formerly a member of Congress, was nominated. He is a gentlemar, of decided abilities.

For the Supreme Bench, the Nominees are R P. Ranney, Wm. B. Caldwell, John A. Corwin, Allen G. Thurman, T. W. Barilley. These gentlemen are fine lawyers, and possess high moral qualities, which will secure, for the judiciary of Ohio the confidence and respect of the people. Our old friend WM. PJ. MOBGAN, Editor of the New Lisbon Patriot, has received the nomination for Auditor of State. A better man could not have been selected. He is "honest, capable and faithful to the 'Constitution."

Columbus, an amiable and true-hearted Democrat, has been placed in nomination. JOYN G. BRESLIN, Editor of the Seneca Ad-

vertiser, and formerly Speaker of the House, was could not be confided to safer hands. BRESLIN was once a "printer's devil."

GEO. E. Pugh, formerly a member of the Attorney General. We are not personally acthe reputation of being a talented lawyer. For the Board of Public Works, Col. Geo. W. Manypenny, Alex. P. Miller and James B. Steedman, have been placed in nomination—all good Democrats, who are familiar with the affairs of the State, and the wants of the people.

KENTUCKY.

The returns from Kentucky which we have received by telegraph the last two days, look decidedly Democratic. Our gallant old Rooster, who has been cooped up for a long time, seems very much inclined to unfold his wings, and give one loud, long and hearty crow! We shall give him some Democratic corn for a few days, and if Powell is elected Governor, we shall certainly "let him loose." Then the way he will mount "that same old coon" on the cider barrel, and scream out "Victory! victory!" will be refreshing and soul-cheering to Democrats!

The Gazette publishes the advertisement for the organization of the Pittsburgh and Steubenville Railroad, but does not say one word about the matter editorially. The reason is plain. This is essentially a Pittsburgh Railroad, and Descon White is opposed to it, because all his interests and feelings are centered in Alle- Luke Lea, Commissioner of Indian Affairs, by ghenytown. Glorious Gathering of the Democracy. The Pennsylvanian of Monday brings us th

proceedings of a Mass Meeting of the Democracy of Montgomery, Chester, Delaware, Lancaster and Philadelphia counties, which assembled on Saturday last, at the Spread Eagle, in Deleware ounty. It was a most gratifying and harmo nious assemblage, says Col. Forney, who was present. The Editor of the Upland Union ALEX: Mc'KEEVER, Esq., presided on the occasion. Col. Bigler, our candidate for Governor, was present, and was warmly and enthusiasti cally greeted by the assembled massess. He ness, ability and eloquence. The meeting was also addressed by Hon. Chas. Brown, Col. J. W.

Esq., of Philadelphia. Col. Forney closes his account of the meeting b saying: "Our political friends brought us good news from all quarters. We met opportunity for the believers in Burr's toc-ology numbers of old acquaintances from Chester County. They were all eager for the fray, and esolved to give the whole ticket a sure and un ed support. Taken altogether this was one of the happiest meetings we ever attended, and it cannot fail to produce the happiest results."

This is a mismistake. When stamps are forwarded to a postmaster they are charged to him in his account, and at the end of each quarter he receives credit for the amount remaining unsold. In the accounts of mails sent and received there are separate columns for the entry of letters paid in money and those paid by stamps. In Ohio, the crop is a very large and fine one. In New York, Indiana, Michigan, and Wisconsin, the yield is also very large, and the wheat of the very best quality .-In Michigan, particularly, the yield exceeds anything ever known, even in Michigan. In the northern and western parts of the State, and also in the southern tier of counties, the wheat is said to reach from one quarter to one-third higher than at any previous season. It is the

No particulars are given in the despatch. The commissigners (Mr. Lea and Gov. The best means of preserving the surplus of the vast fruit crops which will in a few years be raised in all parts of the country, cannot fail to become a matter of general interest. We copy from the last number of the Michigan Farmer, the following description of a fruit drying house which appears to be a good one, but we would suggest the use of line netting made of hard twisted twine, instead of lath screens; and a good ventilator at the top of the building for the free egress of the heated air as it becomes continually loaded with the moisture of the fruit. The free circulation of the air, so essential to rapid drying, would doubtless be facilitated by allowing a space between the screens and the outer

CRAFT, Eq., have pointed out such general attention to his name as the candidate most certain to be successful in the election to the Presidency of the Common Pleas—that it has been hitherto deemed unnecessary to present his name through the Press for nomination by the Democratic Convention. As a practical man of business he has no superior in the State, as may be known by his measures in the Legislature of Pennsylvania, in the disastrous winters of 1829, 30 and 31.
