CCRCFULA in all its multiplied forms, whether in that of King's Evil, Knargement of the Glauds, or Bones, Goitre, White Swellings, Chronic Rheumatism, Cancer, diseases of the Skin or Spine, or of "ulmonary Consumption, emanates from one and the same cause, which is a poisonous principle, or virus inherent in the human system. Therefore, unless this principle can be destroyed, no radical cure can be effected; but if the principle upon which the disease depends is removed, a cure must of necessity follow, no matter under what form the disease should manifest itself. Jayne's Alterntive is almost always successful in removing these diseases, besties which it destroys the virus, or poisonous principle from which those diseases have their origin, by entering into the circulation, and with the blood is conveyed to the minutest fibres; removing every particle of disease from the system.
