IMPORTANT CORRESPONDENCE. DEMOCRATIC UNION OFFICE,) Harrisburgh, August 12, 1851.

DEAR SIR: Gov. Johnson and his friends are endeavoring to make political capital out of the mproved condition of the Finances of the State. You were one of those bold spirits in our Legis-

careful attention as early as 1838, during my first session as a member of the Logislature. The State was then suffering from the Pad measures of Gov. Ritner's adminstration. The act of the 25th of March, 1831, which imposed a State tax of one mill on the dollar upon the valuation of certain property, had been beneficial, no only as a source of revenue, but as a check to extravagent appropriations. A legistature is not so likely to make large appropriations when the people are taxed to pay the interest, as when the same is paid by new cans. The election of Mr. Ritner in 1835 was in const quence of the division of the democratic party, which tending also to the legislative offices, a large major of his friends were elected to the House of Represen res. By fraud and corruption a majority in the Ser te was also obtained—whereupon the act of the 18th o

ebruary, 1836, was passed, entitled "An act to repeal ne State tax on real and personal property, and to con tinue and extend the improvements of the State by rail. roads and canals, and to courter a State Bank, to b called the United States Bank." This act may be justly regarded as the true cause of all our subsequent fins rial difficulties. The people were told that no taxation way necessary-that the U.S. Bank would make cann and railroads wherever they were wanted, furnish the means to educate the children of the Commo and supply all deficiencies in the revenue! Not satisfied with having destroyed the true source f revenue, Mr. Ritner, in his last annual message dated

of revenue, Mr. Hiner, in his last annual message dated "Pih. December, 1839, seemed even to desire to throw mittee of Councils and Gen. Robinson, in regard to the termination of the Ohio and Pennsylvania Railroad, will be published to-morrow.

THE STATE FIVANCES.

We invite the particular attention of our readers to the very able letter of James R. Snowden, Esq., in relation to our State debt, which will be found in this day's paper. It is a letter that will command great attention throughout the State, not only from the fact that he has been intimate-

ory, and so insatisule in their demands, must continue to be granted without regard to consequences." Wonderful words to come from a governor who commenced the Gettysburgh Railroad to benefit the owners of turnaces; and the Wisconiaco feeder to enrich coal speculators! Strange inconsistency to say there must be no taxulion now or hereafter, when in the same message he declares that the Commonwealth is left without means to redeem her own faith!"

Daring the three years of Mr. Ritner's administration, there was rederived from bank bonuses and surplus revenue, which he denominates with great prepriety, fortunate circumstances," and "anexpected receipts," the following sums, viz:

the impression has become by far too general. We gave some facts to prove the contrary, a few days ago; but in this letter Mr. Snowpus shows clearly how the increase was effected, and the fall amount added to our State indebtedness of the fall amount added to our State indebtedness of the fall amount added to our State indebtedness of the fall amount added to our State indebtedness of the contrary, as well in this letter; and that is, the uttor fallary exposed in this letter; and that is, the uttor fallary exposed in this letter; and that is, the uttor fallary exposed in the spublic debt, and the establishment of a sinking fund for its oventual redemption. From the public debt, and the establishment of a sinking fund for its oventual redemption. From the facts and figures given by Mr. Snowpus, it is very evident that a larger portion of the State debt was paid during the administration of dov. Snuxx than has been pals since; and its indeed doubtful whether the actual indebtedness of the State is any less than it was two years ago. The practice that has been resorted to of taking from one pocket to put into another, however it may change the appearance, cannot change the actual state of affairs.

The following lift in extract from my report to the Legislature in farmary 1817.

'In February, 1812, the commonwealth reached the point when nonewallones to pay interest, would be taken, and from that period to February, 1845, no interest was paid; but certificates were issued therefor, bearing six per cent., except for February and August, 1814, which were put at five per cent. The repid increases in the public debt destroyed our credit, produced the deepest alarm in every reflecting mind, and if not timely arrested, would have inflicted an irreparable injury upon our

improved condition of the Finances of the State.

Xon were one of those bold spirits in our Legislature who urged and carried through the great

1 measures that saved us from the disgrace of repudiation; and afterwards, as State Treasurer, you commenced the payment of the interest on our state debt, after years of suspension, and consequent accumulation, at the rate of about a million and a half a year. This all occurred years before Gov. Johnson came into power and as you must be familiar with the efforts of the patriots of that dark and gloomy period of our history as a State, I would be pleased to have your recollections of them in a letter for publication.

Hoping to hear from you at an early day, I remain your friend and obedient servant,

BAAC G. MCKINLEY.

Dear Sir:—I have received your letter of a late date, which i will proceed to answer as briefly as I can, consistently with the importance of your inquiry and request.

The Frightful Execution of Fifty Americans i
Havana-Horrible Scenes. I am too much affected to write to you morthan to say that Thave this day been witness to ene of the most brutal acts of wanton inhuman ity ever perpetrated in the annals of history.— Not content, this government, in revenging them

selves in the death of these unfortunate and perhaps misguided men, and which, it may even be said, was brought upon themselves, but these Spanish authorities deserve to be most severely chastised for their exceedingly reprehensible conduct in permitting the dese have done, of the senseless clay of our brave countrymen. This morning— Forty Americans, One One Italian, One Philippine Islande Four Irish, Two Havaneros, and

Two Germans, or Hungarians, were shot at 11 o'clock—after which the troo were ordered to retire; and some hundreds of the very vilest rabble and negroes, hired for the purpose, commenced stripping the dead bodies, mutilating their limbs, tearing out their eyes, outting off their noses and fingers, and some of the poor fellows (privates) these wretches brought to the city on sticks, and paraded them under the very walls of the palace. Oh, the very remembrance of the sight is frightful.
I never saw men—and could scarcely have
supposed it possible—conduct themselves at such isplayed under such trying circumstances. They were shot six at a time, i. c. twelve were rought to the place of execution, six made to meel down and receive the fire of the soldier after which the remaining six were made to walk round their dead comrades, and kneel opposi o them, when they also were shot. After being stripped, and their bodies mutilated in the ous manner I have described, they were

shoved, 'six or seven together, bound as they were, into hearses, which were used last year for cholera cases. No coffins were allowed them; and I think the manner they were put into the carses was equally as disgusting as their other acts; the heads of some were almost dragging on the ground, and it had more the appearance of a slaughter-cart on its way to market from the slaughter-house, than that of a hearse con-veying the dead bodies of human beings. er looking set of young men I neversaw; they made not a single complaint, not a mur-mur, against their sentence, and decency should have been shown to their dead bodies in admi ration for the heroism they displayed when brought out for execution. Not a muscle was seen to move, and they proved to the miserable abble congregated to witness the horrid spectacle, that, it being the fortune of war that they ll into the power of this government, they were not afraid to die. It would have been a great ion to these poor fellows, as they receatedly asked, to see their Consul, and, through him, to have sent their last adieus, and such little mementos as they had to their beloved re-lations in the States. One handsome young felsays:

the still more serious fact, that a large number of sympathizers, under Gen. Lopez, had effected ward of Bahia Honda, which took place at A.
M., on the 14th inst. Lopez is decidedly a brave
man—brave almost to rashness. It is positively believed here, and I believe it to be true, that the steamer signalled from the Moro Castle, on the evening of the 12th, was the same one which conveyed Gen. Lopez and his friends to these shores. Such a daring act of audacity, bearding as it were the lion in his den, is most extraord

It appears that, close into the entrance of this harbor, Lopez fell in with a schooner, from which he took out the captain and mate, to serve him as pilots on the coast of Bahia Honda, the navigation of which is very intricate. They ar-rived off Bahia Honda about 9 P. M. when they immediately commenced making signals to the shore by means of rockets, &c., which probably had been previously agreed upon between the liberators and those on shore. Gen. Lopez did not effect a landing with his men until 4 A. M.; but the debarkation was done in so masterly a style that before sunrise he had not only landed his men, with all their munitions of war, but was on his march to Las Posas, a town a few miles distant from the coast, where he immediately commenced intrenching himself.

state of confusion and alarm into which the Government were thrown, that he had no distinct idea as to whether Bahia Honda or Mariel were the points to which the liberators had come.

However, the following morning, we are informed that following morning, we are informed provisions and horses can be obtained in abundance.

So unerring and deadly was the fire of the brave liberators that Gen. Enna was three times repulsed with loss. At this moment the Lieut. Governor of Mariel, Col. Gurrea, came up, with about two hundred men more, when the Colonel received a shot through his log could be speedily marched against him. With this force he would manage to make short work, even if they all should stand fast to their colors, which we are told in dealth.

sale butchery was to take place. But, strange to say, notwithstanding all the great preparations made for this horrid spectacle, up to this moment, 10-M. M., it has not been put into execution, and which has the following account:

One handsome, noble-looking fellow, from N. One handsome, noble-looking fellow, from N. Orleans, among the captured, from whom these wretches endeavored to obtain his declaration, in the hope of getting him to implicate others, desired them, in the most peremptory manner, not to interrogate him—that he was not an informer—that the fortune of war had placed him in their power, and that their blood-thirsty character was known to the world; but that he had the satisfaction of knowing that every drop of American blood shed by them would call down to the world shout 12 upon them the vengeance of the American na-

The greatest anxiety is felt here by the Gov-nment, as no news has been received from General Enna of later date than the night before last he steamer Ion, one of the ferry boats has been ent down to see what the matter is; and one our since, an engine was sent express to Guanojay, the western terminus of our railroad to bring news, either good or bad. Nothing had been heard from the troops that left Pinar del Rio to attack Lopez; and it is feared that they have gone over to him. His forces are momentarily increasing, while the fact of nothing being received here by land leads to the supposition that the country has all turned in his favor.— Should Lopez soon receive reinforcements, with arms to distribute to the crowds that go in to him, Gen. Enna must retreat by sea. In either case Lopez's march to Havana will be uninterupted. You can imagine the hopes and fears at agitate the city.
The Tribune says:

We have just received from our correspondent Havana a copy of an Extra of The Diario de la farino, of the 16th inst. The Lieut. Governor f Mariel, near Cubanos sends a despatch concerning the landing of Lopez, the particulars of which he ascertained from two sailors, who were vitnesses of the scene. We translate the folwing extracts;
"The expedition in the opinion of the witnes-

ses, consisted of a thousand men. They only disembarked two barrels of powder, four cwt. of balls and two boxes of muskets. Each perso as armed with a pair of six barrelled pistols, a sword and musket, all in bad condition.— They only landed provisions for one day, the greater part of which was biscuit, and two barrels of meat. The company consisted of fift natives of Cuba, and the remainder from Ameri ca and other countries. On landing, Gen. Lopez sent a letter to the inhabitants of Pozes, threat-

ning them with extermination if they did not hid him." General Bustellos, of the steamer Hibanero also makes a report concerning the capture of the four boats, but it contains no new particu-lars of interest. He repeats the story of Gen. Lopez's party being very much distracted and depressed, and states that they are attempting to seek safety in flight. In relation to the exe-cution of the prisoners, The Diario de la Marina

says a relations in the States. One handsome young fellow desired that his watch should be sent to his such as the states and the states are such as the states. But Mr. Owens, the American Consul, did not even make application to the Capturd in General to see these unfortunate country-men in their distress, and their screed wishes the sale of Antares. Gen. Lopez is brave and daring, and the men he commands are said to be selected from among 1500. Of their success we cannot speculate at present. In the meantime, we have prepared a table, which shows the total Spanish force on table, which shows the total Spanish force on the island, and the manner in which it is distri-buted. It will be seen that it is not so immense as has been represented. We think the table is nearly accurate.

Another report reduces the number to from four to six hundred.

Seventy-RIGHT wounded had been brought in. This, and the fact that not a single prisoner of the patriot forces had been taken, except those taken in the boats, conclusively prove a victory for Gen. Lopez.

Several passengers confirm the statement made above, that Gen. Lopez had, by a brilliant maneuvro, cut off communication between Havana and the troops sent against him. The probabilities are that he has cut off the troops too.
