TAX ON LINEAL INHERITANCES. While the Whig presses have been daily abusing Col. BIGLER for having supported a bill taxing lineal inheritances, it would hardly be supposed by the honest and candid reader that Gov. JOHNSTON had himself not only voted for but recommended this identical measure ! Yet such is the fact, with only this difference, that while Col. BIGLER voted for a bill of this character, in order to add something to the Sinking Fund, and with a view to the early extinguishment of the public debt, Gov. Johnston, when he sustained such a bill, did so without any reference to a provision of this kind. He voted to have the money go into the Treasury in the same manner as other taxes. While WM. F. JOHNSTON WAS a member of the House of Representatives of this State in 1841, he voted for such a bill, as may be seen by reference to the journals, and no farther back than the 1st of January, 1850, he recommended such a measure as Governor of the State. Its acknowledged exponent is the Free Soil par-ty, but it is also virulent and dangerous both in the Whig and Democratic parties at the North. The Whig party has succumbed to it, and it controls the organization of that party in every non-slaveholding State in the Union. It is thorsoughly denationalized and sectionalized by it, and will never make another Entional contest. TO THE EDITOR OF THE MORNING POST :-Passing up Webster street, on Friday evening after dark, I was very much surprised, badly scared and severely injured, by instantly sinking lown to the middle through the rotten boards that compose the side walk. Dr. J. S. Houghton's Pepsin, for Dyspepsia, Prepared from Rennet, or its Stamack of the Ox.

I. Un'tile 7th of May, 1851, Rev. M. D. Williams, Paster of the Fourth Presbyterian Church, in Louisville,

Paster of the Fourth Pressyterian Church, in Louisville, Rentincky, was and had been four long time confined to his room, and most of the time to his bed, with Dyspepsia and Chronic Diarrhos, and was, to all appearance, on the very verge of the grave, and acknowledged to be oby his physician, who had tired all the ordinary means in his power, without effect, and at the above named time, the patient, with the consent of his physician, commenced the use of Dr. Houghten's "EPSIN," and to the astonishment, surprise and delight of all, he was much relieved the first day. The third day he left his room. The sixth day, which was, excessively hot, he went on a visit to the country; and, on the thirsenth he went on a visit to the country; and, on the thirsenth he was on far recovered as to go alone a journey of the hundred, miles, where he sarrived in safety, much improved in tealth, having had no disturbance of the anomach or bowels, ofter taking the first dass of Popsis. These facts are not controverlible, and that this is a case which ought to convince all skeptics that there is a power in "PEPSIN". Let physicians and dyspeptics investigate.
