Pittsburgh Life Insurance Company.

This COMPANY was incorporated in February,
1831, with a Perpetual Charter, and has commenced
business on a Capital of \$100,000.

The Company does business both on the Joint Stock
and Mutual plane.

On the Joint Stock plan the rates are one-third less
than those charged by Mutual Companies, and Filteen
Per Cent. lower than the rates of most Stock Companies.

Mutual rates are the same as those adopted by other Per Cent. lower than the rates of most Succe Companies.

Mutual rates are the same as those adopted by other safely conducted Companies. Those insured on the mutual principle have the combined securities furnished by that system of insurance, and the Capital and Surbius Fund of the Joint Stock department.

The Charter permits the granting of insurance on life, in every form; including she right of wife, children, partents, relations, friends or creditors—to insure the life of another for their own exclusive henefit, payable after death, or upon the parties arriving at the age of 50, 55, 60 or 65, at the option of the insured.

Drngs and Medicines. ANOTHER SCIENTIFIC WONDER!
PEPSIN!
THE TRUE DIGESTIVE FLUID, Or Gastric Juice!
A GREAT DYSPEPSIA CURER, Physiological Chemist, by J. S. HOUGHTON, ALL., North Eighth street, Philadelphin, Pa.

It, North Eighth street, Philadelphin, Pa.

This is a truly wonderful remedy for INDIGESTION, DYSPESSIA, J.1BNDICE, CONSTIPATION, LIVER COMPLAINT, and DEBILITY, ouring after Nature's own method, by Nature's own agent, the Gastric Juice. Half a teaspoonfall of this Fluid, infused in water, will digest or dissolve Five Pourds of Roser Breef IN ABOUT TWO HOUES, out of the stomach.

SCIENTIFIC EVIDENCE!

Been LEVIS, in biscelebrated work on Animal Chem Baron Lieble, in hiscoelebrated work on Animal Chem istry, says: "An artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the majeous membrane of the stomach of the call, in which various articles of food, as meat and eggs, will be so softened, changed and digested, just in the same maner as they would be in the human stomach."

Dr. Perriera, in his famous treatise on "Food and Diet," published by Fowlers & Wells, New York, page 35, states the same great fact, and describes the method of preparation. There are few higher nathorities than Dr.

Dr. PERRILA, in May Fowlers & Weils, New York, page 35, states the amme great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.

Dr. Comra, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Julee is in prominent and all-prevailing cause of Dyspepsia;" and he states that "a disvaling cause of Dyspepsia;" and he states that "a disvaling severely affilted with this complaint, finding everything else to fait, had recourse to the Gastric Julee; obtained from the stomach of living animals, which proved completely successful."

Dr. Garlam, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology that the stomache of animals, macerated in water, impart to the fluid the property of dissolving various arricles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestion of them in no wise different from the natural digestion of them in no wise different from the chemical history of Digestion. From recent experiments we know that food is dissolved as rapidly in an artificial digestive fluid, prepared from P-psin, as it is in the natural Gastric Julee itself."

Professor Dunglison, of the Jefferson College. Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject. His experiments with Dr. Beaumont, on the Gastric Julee, obtained from the living human stomach and from animals, are well known. "In all cases," he says," digestion occurred as perfectly in the artificial as in the natural digestions."

AS A DYSPEPSIA CURER, Dr. Housernow's preparation of PEPSIN has produced the most marvelous effects, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the very verge of the grave. It is impossible to give the details of cases in the limits of its impossible to give the details of cases in the limits of its impossible
