Dr. Jayne's Family Medicines.

XTRACT of a Letter from the Rev E. L. Abbott, a well known and highly esteemed Missionary in the kingdom of Burmah, dated

Sandoway Arracan, February, 1846. have used your TONIC VERMIFUGE as a tonic in intermittent lever, with the most complete success. It think it once was the means of saving my own son. During my travels among the charches the past season, I found a whole village suffering under a prevailing influenza, attended with coughs of a most violent character. I outen regretted I had not had a dozen or two of your EXPECTORANT to administer to them, for I clieve from what I have seen of its effects, that it would have been just the thing for those poor people. I presume you have not hitherto had an idea to what an extent your medicines are used in all our Missions.

Affectionately yours, E. L. ABBOTT.

R. LARZETTE'S JUNO CORDIAL, or Procreative Elizir, prescribed as an effectual restorative in cases of debility, impotency or barreiness, and all irregularities of nature. It is all that it professes to bequiz: Nature's great restorative, and remedy for those in the married state without offspring. It is a certain cure for seminal emissions, general debility, gleet, weakness of the genital organs, nervous affections, leucorrhoa or whites. As a vigorating medicine it is anequalled.

Also, a certain remedy for incipient Consumption, indigestion, loss of muscular energy, physical lassitude, fomale weakness, debility, &c. It is warranted to please the naer in any of the above complants, and is of price less value to those without offspring.

To spread wide the blessings of this medicine, I have appointed Mesars. Judson & Co., of the city of New York, in the United States of America, my sole agents for its sale; and none can be genume miless it comes through them, and their signatures are on the wrapper.

FURNITURE MANUFACTURER, ANOTHER SCIENTIFIC WONDER!
PERSIN!
HE TRUE DIGESTIME FLUID OF Gastrid Jules!

A OREAT DYSPEPSIA CURER,
DREPARED from Reunet, or the fourth stomach of
the Ox, after directions by Baron Likano, the great
Physiological Chemist, by J. S. HOUGHTON, M.D., No.
11. Morth Eighth street, Philadelphia, Pa.
This is a truly wonderful remedy for INDIGESTION,
INFERSIA, JUNDICE, CONSTIPATION, LIVER
COMPLAINT, and DEBILITY, caring after Nature's
own method, by Nature's own agent, the Gastric Jules.
Half a teaspoonfull of this Fluid, infused in water,
will digest or dissolve Five Powns or Roast Berr in
About two hours, out of the stomach.

SCIENTIFIC EVIDENCE!

Baron Lurine, in his celebrated work on Animal Chem
istry, asys: "An artificial Digestive Fluid, analogous to
the Gastric Jules, may be readily prepared from the marious articles of food, as meat and ergs, will be so softenell, changed and digested, just in the same manner as
they would be in the human stomach."

If. PERRIAA, in his famous treatize on "Food and Diet, "published by Fowler's & Wells, New York, page 35,
states the same great fact, and describes the method of
preparation. There are few higher authorities than Dr.
Percira.

Dr. Comms, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due
quantity of the Gastric Julee is a prominent and all-pre
vailing cause of Dyspepsia; and be states that "a dis
severely afflicted with this complaint, finding every thing
else to fail, had recourse to the Gastrio Julee, obtained
from the stomach of living animals, which proved compicely ancessail."

Ik. Garanz, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology
that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digest
ivd process."

more than fifty pages to an examination of this subject. His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from adimals, are well known. "In all cases," he says, "digestion occurred as perfectly in the artificial as in the natural digestions."

Dr. Houseron's preparation of PEPSIN has produced the most marvelous effects, curing cases of Debility, Emaciation, Nervous Decline, and Dyspepite Consumption, supposed to be on, the very verge of the grave. It is impossible to give the details of cases in, the limits of this advertisement—but authenticined certificates have been given of more than TWO HUNDRED REMARK, ABLE CURES, in Philadelphia, New York, and Boston alone. PATENT METALLIC BURIAL CASES. I HE subscribers having revenly made arrangements.

I with the Phientee of this new and collected inves-ion for the manufacture and, sale of the article in the sively in the East, where they are superseding that use of wooden collans; take this method of informing, the public, that they are now manufacturing eighteen different sizes of the modern Sarcophagus, varying in length from 28 inches to 6; feet, with width and depth saintable for bodies of ordinary size, and for those who desire is space for cushioning, or for bodies of annuand dimensions, have several sizes deeper and wider. This inventor now coming into general use, is pronounced one of the greatest of the age. These brank Oasks are composed of various kinds of metals, but principally of iron.

They are thoroughly enameled inside and out, and thus made impervious to air and indestructible. They are highly ornamental, and of a classic form, are light and portable, while they combine the greatest strength which metal is capable of, in a given quantity.

When properly secured with cement they are perfectly air tight, and free from exhalation of oftending ages. They cost no more than good wooden coffins, and are better than any other article in use, for whatever cost, for transports ion, vaults, or ordinary interments, as has been proven by actual experiments, and certified to by some of our most scientific men; also, by the Honorables Henry Clay, Daniel Websler, Lewis Cass, and other distinguished Schators who have winessed their merits, and whose letters, together, with other evidences of their worth, may be seen at our Agents' Burial Case of their worth, may be seen at our Agents' Burial Case of their worth, may be seen at our Agents' Burial Case of their worth, may be seen at our facility. And of undertakers particularly throughout the west, to an examination of the article, and request them not torely upon the representations of undertakers not using the article, whose interest it would be to misrepresent them.

W. C. DAVIS & CO. are soon not 'only healed, but cored by its use, as at least seven physicians in New York know, who use it in such cases, and find it unfailing—as talso, in PIMPLES, BLOYCHES, FRECKLES, in such cases, and find it unfailing—as also, in PIMPLES, BLOTCHES, FRECKLES, or any other skin disease. The reader is assured that this is no uscless puffed nostrum, as one trial will prove. I could enumerate at least 80 persons cured of SORE HEAD, SORE LEGS AND SORE BEARD. Buy it, and the reader is again assured, I would not cruelly sell it for the above, unless I knew it to be all I state. These who are liable to CHAPED, CRACKED, OR CHAPPED FLESH, will find this not only a cure, but a preventive; and I can now only add, that any one afficient with any or the above, or similar diseases, will find this all and even more (admirable in its properties) than I state.
