FOR VICE PRESIDENT WILLIAM R. KING, OF ALABAMA; Subject to the same decision.

PROSPECTS OF MR. BUCHANAN. . The sentiment which we long since expressed that the name of James Buchanan is a tower of strength to the Democracy of Pennsylvania, be comes every day more obvious, from the statements of our contemporaries of the Press, not only in this State but in other parts of the country; and especially among the unflinching Demorracy of the South. We continue to present their expressions in favor of the greatest statesman of Pennsylvania, if not of the Union.

The Lynchburgh Virginian, one of the most influential papers of the State, says:-"The past noble services of Mr. Buchanan in the cause of the Democratic party, the Consti-tution and the Union, have endeared him to the hearts of all true Democrats and patriots, alike in every section of the country. His present bold and manly position, untainted by surround-ing corruption, upon a subject of threatening oort, has secured the respect, confidence and import, has secured the respect admiration of all sections and partiessingle exception of that party whose idol is the God of Abolition, and of its arch confederates, who, lost to all the high impulses of truth and patriotism, obey, only the dark and desperate promptings of disappointed ambition. The atks of such a party and of its worthy allies will result in this, as in all other instances, in a

recoil upon the heads of those whose malign hearts conceive them. The South remains firm and unshaken in her respect and admiration for Buchanan, and entertains an abiding confi try will ever possess a true and ample expound-er—the equal rights of all sections a faithful defender—and the greater Democratic party an unyielding and invincible champion." The Georgia Constitutionalist, a very influen-

tian Whig paper of that State, referring to the prospects of the various candidates, says :-"That the Whig party of the Union will make nomination for President that the Southern As a Patriot and Statesman, in the purity of his Rights party could sustain, is not in the range ible things. That the National Democracy may make such a nomination, is not impossi-ble. Whether the Whig or the Democratic ele-

on the second Tuesday of October last, has, in the opinion of a majority of our exchanges, been very advantageous to Mr. Buchanan. This view of the matter, we think, too, is a reasonable one, inasmuch as Governor Johnston, while stumping the State for himself, took particular pains to abuse and villify that distinguished statesman. The people have thus, after hearing the story of this "model Governor," rendered a verdict against him. Unless, then, some rev ntion takes place in the political world, which we have no reason to expect, the Democratic Whig parties will enter the field in 1852 with James Buchanan and Millard Fillmore.field of battle. country continue to be favorable to the nomina-tion of James Buchanan, as the next Democratic erned by envy and malice.

The Valley Spirit, at Chambersburg, says: - | of other States, we should say that he result of the recent election in Pennsylvania has greatly enhanced Mr. Buchanan chances for the greatly enhanced Mr. Buchanan chances for the Presidency. Congratulations are pouring in upon us from all points of the compass, and in upon us from all points of the compass, and in an early every instance Mr. Buchanan's name is nearly every instance Mr. Buchanan's name is nearly every instance Mr. Buchanan's name is coupled with our victory. His career in the National House of Representatives, from the day he first went there, was brilliant and commanding. He early espoused the cause of the patriot Jackson, and was honored and esteemed by the old hero to the last hour of his prosperity. 8. bl. KIER. "I had been afflicted several years with a sorenes

"I had been uffilted several years with a soreness of both eyes, which continued to increase until hat September, (1850), the inflammation at that time having involved the whole lining membrane of both eyes, and ended in the deposite of a thick film, which wholly destroyed my sight. I had an operation performed, and the thickening removed, which soon returned and left me in as had a condition as before. At this stage of the complaint I made application to several of the most eminent medical mea, who informed me that "my eyes would never get well." At this time I could not distinguish any object. By the advice of some friends I commenced the use of the Fetroleum, both internally and locally, under which my eyes have improved daily until the present time, and I have recovered my sight entirely. My general beath was very much improved by the Petroleum, and I attribute the restoration of my sight to its use. I reside at No. 102 Second street, in this city, and will be happy to give any information in relation to my case

[Jr On the 7th of May, 1851, Rev M. D. Williams, Pastor of the Fourth Presbyterian Church, in Louisville, Kentucky, was and had been for a long time configred to his room, and most of the time to his bed, with Dyspepsia and Chronic Diarrhea, and was, to all appearance, on the very verge of the grave, and acknowledged to be so by his physician, who had tried all the ordinary means in his power, without effect, and at the above named time, the patient, with the consent of his physician, commenced the use of Dr. Houghton's "PEFSIN," and to the astonishment, surprise and delight of all, he was much relieved the first day. The third day he left his room. The sixth day, which was excessively hot, he rode ten miles with no bad effect; on the eighth day he went on a visit to the country; and, on the thirteenth day, though not entirely restored to his natural strength, he was as far recovered as to go done a loarney of the
