

Daily Morning Post

MONDAY MORNING NOVEMBER 17.

To Stockholders and Agents.

We sincerely trust to devote more of our time to the notice of river matters. In this

we are determined that the news shall

not be excused by any paper in the country or elsewhere; and we would thank especially

solicitors who are interested in steamboats to

give us all the assistance in their power. We

would also suggest that the owners and agents

of boats will fit to their interest to adver-

tise the hours of departure in this paper. The

extensive and increasing circulation of

the Post makes it desirable to make known

that all kinds of business may reach the

public. A hint to the wise is sufficient.

Yours truly,

John W. Morris, President.

The most glorious rains have

swollen the streams in this city very rapidly.

Yesterday morning at 8 o'clock, there were 12

feet of water above the tide mark, and the

water was still rising.

This morning, the tide mark was

disagreeable for out-door business, which was as

usual, in taking in their cargoes for that port.

Up to 10 o'clock yesterday, upwards of 600 cases had

arrived from the Monongahela bridge.

Never before have we seen such

a number of packages sent in

to business, and more cases in

business, and more cases in

the decreased condition of money in the course

of a few days.

At present, the market remains unchanged, and the price of Soda is plenty.

Soda continues to be made at 44

cents per barrel.

The market is now firm.

BEEF.—Saloons open for shipping.

BEER.—The market was dull.

WINE.—The market was dull.

COFFEE.—The market was dull.

COKE.—The market was dull.

COAL.—The market was dull.
