PITTSBURGH: TUESDAY MOBNINGNOVEMBER 18.

FOR PRESIDENT OF THE UNITED STATES. JAMES BUCHANAN OF PENNSYLVANIA;

DEMOCRATIC TICKET.

FOR VICE PRESIDENT: WILLIAM R. KING. OF ALABAMA;

Subject to the same decision

We received, yesterday, another letter from the New York Puffers-in-General, or "Circle of Correspondence," as they modestly call themselves, which of course we decline publishing not wishing to advertise the Humbugs of Gotham gratuitously. We regret to find that a number of respectable papers have allowed themselves to be imposed upon by these sharks, for they deserve no milder name. The press should never lend its mighty influence to advance imposters, charletans and humbugs.

The Rivers-Rusiness It was truly charming to take a look at our levee yesterday morning. To listen to the busy notes of preparation sent forth by fifty steamers: the prompt command of captains; the impera tive echo of mates, and the ready "aye aye, sir," of hands, made the scene one of the most cheerful we have looked upon for a long time. Our steamboat men will reap a rich harvest out of the present rise of water, and we have no doubt that their business will continue profitable to the end of the sesson.

We congratulate our manufacturers and merchants on this fortunate opportunity to send forward the immense amount of orders that have for months past been accumulating in their houses. They have struggled manfully, and, we come through it unscathed. Pittsburghers may well be proud of their mercantile and manufacfuring community, and challenge rivalry with any city in the Union in both those branches of our prosperity.

"DEMOCRACY IN AMERICA"

Boston Pilot is inflicting some very absurd and latter into market, he requires a remuneratvery anti-Democratic "Lessons for Voters" upon ing price for them. Hence the high prices of the 'readers of that journal.' From the transcendental and Carlyleish style of the articles. we infer that the author is none other than the celebrated O. A. Brownson, a man who has been the demand, and we do not think that the pres-"everything by times and nothing long," in ent high prices should deter our dealers from politics as well as other things; and who can making their contemplated investments. write with as much volubility about the most the vein, as he can learnedly in the higher doubt, be interesting to our mercantile readers branches of science. We maybe mistaken in at Statement of the Crop of Hoge of Ohio, Indiano tributing these articles to Mr. B. If we are, we have done him an injury, and paid the real author a compliment which his anti-republican Crop of Hogs in 1849-50-1,603,120, averaging 200 lbs' equal to 321,624,000 lbs, which we divide as follows. logic is unworthy of.

either totally ignorant of the progressive genius 25 th seaf Lard to a Hog at 220 the to the bbl, and are desired to the bbl, and are constitute and add to the large transfer and the seaf and the seaf are the seaf and the bbl, are constitute and the seaf are the seaf and the seaf are the se of our Government, or servilely wedded to the slavish institutions of the old tyrannies of Euslavish institutions of the 'old tyrannies of Eu-rope. He can see nothing to commend in the glorious privileges suggested, advocated, and es-to the side most to a Hog, at 200 lbs to the bbl. tablished by Jerrenson, a name which will re-Emain immortal, so long as a human being reCrop of Hogs in 1850-51-1,254,608, averaging 180 the mains to read the Declaration of Independence; but he is full of pathos and words in regretting the defeat of the aristocratic schemes of Hamilton and Adams. Every American will readily admit that both Hamilton and Adams rendered efficient aid in the struggle for Independence, but it is just as well known to all acquainted the struggle for the pathology of the struggle for 1 acquainted the struggle for Independence, but it is just as well known to all acquainted the struggle for 1 acquainted the struggle for 1 acquainted 1 acquainte mains to read the Declaration of Independence: fastened upon the States a tyranny as galling and Years war.

foreign population, who would suffer most grevious wrongs if the Adams principles prevailed, about densure the democracy for abolishing the notions that place them under a burden as oppressive as that from which they escaped, is to us a matter for wonder.

when it attempts to give "Lessons" to the Democracy, and in those "Lessons" labors to convince its readers that the authors of the Alien and Sedition laws were the "conservators" of Bepublican principles in America, it mistakes its vocation, and only panders to the proscriptive and aristocratio notions of whiggery and nativism. Such notions may suit the meredian of Boston, and when revised and improved a conservation of the Alien was a very large to the proscriptive and aristocratio notions of whiggery and nativism. Such notions may suit the meredian of Boston, and when revised and improved a conservation of the Alien when the conservation is perhaps, the deepest of the world. The coal was first found one thousand six hundred feet below the surface, and it is now worked at one thousand eight hundred feet. These English mines employ large before, say about 140,000 bbts, equivalent to the Side this deficiency as not been lessened. It would seem, then this deficiency has not been lessened. It would seem, then this deficiency has not been lessened. It would seem, then the probability of prices this coming season being sus-Boston, and when revised and improved, might make an appropriate appendage to a copy of the ancient Blue Laws, but at present, our democracy ancient Blue Laws, but at present, our democracy require no lessons which would teach them to bend their necks in humble submission to such yokes as Hamilton and Adams, with their Alien and Sedition Laws would fasten upon them.

We wish to have no controversy with any professedly Democratic paper; and only referred to The hewers are the actual miners of the coal. The "Democracy of America" know their duty.

They have performed it for a long time faithfully and profitsble to those who sought protection in its principles, and they will continue in the number of the sound and house-rent free.

They have performed it for a long time faithfully and profitsble to those who sought protection in its principles, and they will continue in the number of the sound miners of the coal, and receive about 20s. a week, working six hours a day, with coal and house-rent free. Children under eight years of age are now excluded by law, and the barbarous harnessing of the sound miners of the coal, and receive about 20s. a week, working six hours a day, with coal and house-rent free. Children under eight years of age are now excluded by law, and the barbarous harnessing of the sound miners of the coal, and receive about 20s. a week, working six hours a day, with coal and house-rent free. Children under eight years of age are now excluded by law, and the barbarous harnessing of the sound miners of the coal, and house-rent free. Children under eight years of age are now excluded by law, and the barbarous harnessing of the sound miners of the coal, and house-rent free. Children under eight years of age are now.

Mrs. Fanny Kemble was thrown from her horse at Brighton. The shock was great, but should be nominated the Whigs would carry the State. tion in its principles, and they will continue in be nominated the Whigs would carry the State. the even tenor of their way, regardless of all We could very easily find other grounds than the "Lessons" that may be written by those who this on which to base a controversy; but think know nothing about Democracy.

COL. JOHN W. FORNEY.

In exact proportion to the brightening prosbrought before Congress, during the last ten or twelve years. Those who make this objection. can scarcely be ignorant of the fact, that no editor in the country has been more consistent than Col. Former in his opposition to all schemes, originating where they might, that looked to the General Government; and we may also add, possesses all the talents requisite to fill the presthat there is no paper in the country, where one may calculate with more certainty on anding time has not yet arrived. Pennsylvania will government advertisements, (when such things are to be had by opponents of the Democracy,) than the identical paper that has originated the assertion to which we have referred.

duct of ex-Consul Owen.

The Pork Trade in the West. We observe, by our Western exchanges, that luring former sensons. The Peoria (Ill.) Press, of a late date, savs : of a late date, says...

Hogs.—We have been informed that a Mr.

Hayes, of Dewitt county, has 2800 hogs—1800 of which will average 800 lbs. Mr. H. holds himself. From our latest accounts from St. Louis, it appears that the hog excitement is not so great, and contracts are now made at prices below \$5,00. We may expect, then, that Mr. Hayes will pack his 2800 hogs in Peoria.

From the best information we can gather, we are led to believe that the number of hogs in this county and in the counties immediately sur-rounding Peoria; is as great as last year if notgreater, and in quality are much superior. We have heard of but few contracts. A few lots of from 200 to 500 have been bargained for at \$4.
Our pork dealers feel disposed to hang back—
and those who have come here with a view of packing, have not yet entered the market very vigorously.
In Alton, hogs command from \$4 to \$5 \$100.

Cattle. \$3.50@\$3.75. Burlington and Quincy-heavy hogs at \$4. On the Wabash, hogs are offered at \$4, with but few sales. Packers are holding off for \$3,75, at which they would take any quantity. The Press is published on the Illinois River. We quote the following from the Oquaka Spectator, published on the Mississippi, which shows that the prices on either stream are nearly the same and alarmingly high: "Several of our Merchants are in the market,

and have already engaged a large number of hogs. The prices paid, \$4,25 \$9 100 fbs., are a little higher than any other point on the river, above the Rapids—although many are yet hold-ing back for higher prices." These prices are, no doubt, startling to our packers and Pork dealers; but, when calmly considered we do not believe that there is any

ground for alarm. But a few years have passed since the farm of the West had to sell their corn for ten or twelve cents a bushel. Then, they found it more profitable to put it into hogs and sell the hogs at taken place in the spirit of trade in the West as well as in other places. The prices of grain have more than doubled. The farmer now receives from 26 to 30 cents for his corn. and all are happy to say, successfully, against an un. \$1,50 or \$2,00 \$9 100 lbs. But, a change has precedented depression in trade, and they have taken place in the spirit of trade in the West as other kinds of grain in proportion. With these prices offered him for the products of his farm he concludes that he can make more by raising This is the title under which a writer in the grain than raising hogs, and if he brings the

> the present season. We feel confident that the crop of hogs in the West, the present season, will fall far short of We find the following tabular statement in the take her place in the Cincinnati line. We hope Louisville Courier, of a late date, which will n

Tennessee, Kentucky, Missouri, Iowa and Illinois, for the years 1849—'50 and 1850—'51.

The writer of these "Lessons" in the Pilot, is 3.216,240 hams, at 15 the each. 10.201.000 9 the rump to a Hog, at 200 the to the bbl, 64,-325 bbls, or 12,964 960 321,624,900

limest hopeless case.
In the winter of 1850, I was attacked with a seven In the winter of 1850, I was attacked with a severe pain, which was gradually extending through the whole right side and leg; at the same time, a total prostration of my physical system; also, my leg had shronk to about two thirds of its common size. I procured the attendance of a skifful practitioner, who pronounced my disease one of the worst forms of iver complaint. He said my case was one not easily handled, but prescribed for me. I remained under his treatment until I was satisfied he could not help me. I then procured of your agent at this place, W. A. Beers, two bottles of Guyacti's Yellow book and Sarsaparilla, from which I received a vast amount of benefit. After having taken four bottles more, I was able to pursue my business without any inconvenience, and have been since that time a well man, while but a short time since I was confined to my bed three-fourths of the time; and I cannot asoribe the return of my health to any other cause than by the agency of that truly valuable medicine, Guyzott's Yellow Dock and Sarsaparilla. HASSFL VAURIFER.

ar. J. D Fars—Bear Sir: I send you the foregoing certificate, and so far as I am acquainted with his case, it is all true. I produced it, thinking it might be a benefit to you and the afflicted. You have the privilege of using it as you think best. Yours, W. A. BEERS. using it as you think best. Yours, W. A. BEERS.

The following Letter is from a highly respectable Physician, who enjoys an extensive practics:

NAVARER, (Stark Co., O.), Nov. 1, 1831.

Dr. John D. Park—Dear Sir: "Dr. Guyzott's Extract of Sarsaparilla" This medicine has been prescribed by me for the last three years, with good effect, in general debility, Liver Complaint, Jaundice. Dyspepsia, Chronic and Nervous diseases. In all Female Complaints it certainly is unequalled.

In the use of this medicine the patient constantly gains strength and vigor, a fact worthy of great consideration. It is pleasant to the taste and smell, and can be used by persons with the most delicate stomachs, with safety, under any circumstances. I am speaking from experience, and to the afflicted I advise its use.

DR. J. S. LEEPER.

SPECIAL NOTICES.

I In calling attention to Dr GUYZOTES Improved tract of Yellow Dock and Sarropardia we feel conf-int that we are doing a service to all who may be at-cied with tergriday and other districts nightnating hereditary taint, of from impurity of the blood. We are known instances within the sphere of our acquain-nce, where the most formidable distributes have here ance, where the most formidable distempers have been ured by the use of Guyzaitz Extract of Yellow Dock and Sarroparilla alone.

It is one of the few ndvertised medicines that cannot estimated with quackery, for the "Yellow Dock" and the "Sarraparilla" are well known to be the most findicant, (and, at the same time, innovious) sgents in the whole Materia Medica, and by far the best and purest prevarations of them is Dr. Guyzait? Yellow Dock and Sarraparilla. See advertisement.

istion to the facts there set forth. S. M. KIER.

"I had been afflicted several years with a soreness of both eyes, which continued to increase multilast September, (1850), the inflammation at that time having involved the whole lining membrane of both eyes, and ended in the deposite of a thick film, which wholly destroyed my sight. I had an operation performed, and the thickening removed, which soon returned and left me in as bad a condition as before. At this stage of the complaint I made application to several of the most eminent medical men, who informed me that "my eyes would never get well." At this time I could not distinguish any object. By the advice of some friends I commenced the use of the Petroleum, both internally and locally, under which my eyes have improved daily mill the present time, and I have recovered my sight entirely. My general health was very much improved by the Petroleum, and I quiribute the restoration of my sight to its use. I reside at No. 102 Second street, in this city, and will be happy to give any information in relation to my case
