"I had been afflicted several years with a soreness of both eyes, which continued to increase until last Sep-tember, (1830), the inflammation at that time having, in-volved the whole lining membrane of both systs, and ended in the deposite of a thick film, which wholly de-stroyed my sight. I had an operation performed, and the thickening removed, which soon returned and left me in as bad a condition as before. At this stage of the complaint I made application to several of the most eminent medical men, who informed me that "my eyes would never get well." At this time I could not distin-guish any object. By the advice of some friends iccom-menced the use of the Petroleum, both internally and locally, under which my eyes awe improved daily inntil the present time, and I have recovered of my sight entire-y. My general health was very much improved by the Petroleum, and I attribute the restoration of my sight enti-tis use.
