FRIDAY MORNING......DECEMBER 12 DEMOCRATIC TICKET. FOR PRESIDENT OF THE UNITED STATES:

JAMES BUCHANAN OF PENNSYLVANIA; lecision of the Democratic General

FOR VICE PRESIDENT WILLIAM R. KING, OF ALABAMA: Subject to the same decision

TO THE DEMOCRATIC PARTY OF A Democratic State Convention will be, held at Har-risburg, on Thursday, the 4th day of March, 1852, for the purpose of nominating a candidate for the office of Canal

Also, to elect delegates to represent the State in the didates for President and Vice President of the United States, and nominate an Electoral ticket to be supported at the ensuing Presidential election. The respective ounties throughout the State will elect the usual number of delegates to said Convention

A meeting of the Democratic City Committee of Correspondence was held on the 6th inst., when, on motion, it was Resolved, That the Democrats of the First Ward hold their primary meeting at the Napo-leon House, west side of the Diamond.

Resolved. That the Democrats of the several Wards be requested to assemble at their usual places of meeting on Saturday the 20th instant, etween the hours of 8 and 61 o'clock, for the purpose of electing five delegates from each Ward, to meet in convention on the following day to nominate a suitable person for the Mayoralty

A. McCAMMON, Ch'mn. D. WEARTZ, Sec'y.

We publish this morning a card from Dr. McCLINTOCK, in reply to a long article published in our paper a few days since, from Mr. H. P. LAIRD, of Westmoreland. . The card we refer to, closes the controvers so far as the Morning Post is concerned. Mr. Laird and Dr. McClintock have both had a hearing, and, as the matter is growing a little too

personal to be either "interesting or instructive," we think it shall stop here. From our intimate knowledge of Dr McClinrock-and we have known him from early boyhood-we cannot conceive the idea that he could be guilty of a falsehood, or a dishonorable act We appreciate him too highly as a friend and a fellow citizen, to prostitute our columns to the use of those whose malignant feelings may prompt them to assail him in a dishonorable manner, and the malice of his enemies find some other channel of attack than the col-

umns of the Morning Post.

THE PROGRESS OF KOSSUTH. From the accounts given in our New York and Philadelphia exchanges, we should judge that the entree of Kossuth into New York was one of the most grand and imposing spectacles, ever witnessed; because it was the united offering of homage from hundreds of thousands of free citizens, to a solitary individual-an exile from home and country—without the power of patronage and seeking for nothing for himself, that may not be equally shared with his countrymen. No monarch oh earth could at this moment call gation in 1851..... forth hosts of exulting freemen; -no man on earth could enlist the sympathies and the most ardent affections of all men, as does Louis Kos-SUTH; and all this is owing to the fact, the single | have declared a dividend of ten per cent. fact, that he is at this moment the true embodyment of the GREAT IDEA of the age-Republican Freedom! His progress in the world, from the moment that he came under the protection of the stock of the Farmers' and Mechanics' Bank gone, seemed to look upon his imprisonment as operation atomt ten months. the occultation of the Star of Europe, and his

The preparations that have been made in both these cities, are alike creditable to them, and to their country. Philadelphia will receive him with all her patriotic Citizen Soldiers and nearly all her Societies of of every kind. Her German population will unite to a man in honoring the great chieftnin ; and all that can be offered in demonstration of their devotion to the cause, will be freely offered. Baltimore has made preparations in accordance the most honored of all her honored sons have been deputed to take the most active part in declaring to Kossuth the welcome of the Monumental City. - .

LIGHTING THE LEVEE.

As citizens desirous of advancing the interests of our beloved city, we deem it our duty, from time to time, to make such suggestions in regard to public and private improvements as may conduce to the comfort and convenience of our people. We know of no project at this time that will be received with more general favor than the one we are about to discuss—we allude to the lighting of the Monongahela levee There is no city in the Union-certainly none

in the great Mississippi Valley—that can boast of so beautiful a levee as this same Smoky City of Pittsburgh. At present it is very poorly lighted-the only burners being scattered along the Water street pavement. From that pavement down to the waters edge there is not a single gas burner. During dark and foggy nights the levee presents any thing but an attractive appearance, and the steamboats are compelled to hang out torches in order that draymen, shippers and others may see to do business. The darkness of the leves also gives an opportunity for wharf rate and thieves to commit their depredations, and steal without being detected. What we propose is this to erect a number of large gas posts in a line along the levee, at high water mark, from the point to Bakewell's Glass Works, around which there should be neat and Strong iron enclosures. There should be at least three brilliant burners to each post, covered over with clear lamps. Such lighters as we propose will not only be of incalculable benefit to those who are compelled to do business on the Monongahela levee after night, but they will also be an honor and an ornament to the city of Pitts-

Of course these burners cannot be erented for nothing; but in our opinion the cost is but a small matter when compared with the advantages arising from the proposed improvement The revenue to the city derived from the steam. boats which land at our wharves, is immense and we think it is but right that a small portion of that revenue should be set apart for the purpose of making the improvement we suggest.

We hope that our City Councils will take some action in the matter as soon as possible.

We do not think there can be found a speci men of truer and purer eloquence than the folwith her ancient system of true hospitality; and lowing, which we select from one of the speeches of Kossuth as reported in the English papers. When all who have heard him boar the same tes timony to his power in this particular, is it at all wonderful that the People of our country, without distinction of party, are becoming unanimous in behalf of the cause of European freedom; and in favor of our doing all that we can do to advance the great cause: "Three years ago, yonder house of Austria, which had chiefly me to thank for not having

The estimates of appropriation of the Department for the year ending 30th of June, 1852, is set down at \$7,182,023 47, while the amount for the year ending 30th June, 1853, is \$5,695, the 5th of December, 1839, of the four-penny for the year ending 30th June, 1853, is \$5,695, the four-penny rate; (followed January 10, 1840, by the penny rate of the year ending 30th June, 1853, is \$5,695, the four-penny rate; (followed January 10, 1840, by the penny rate on unpud letters,) the gross revenue from posstated. In the year ending January 5, 1889, being the

tages in the United Kingdom, was .....£2,590,763 10s 11d. And the expenditures ...........756,999 7s 4d. Leaving a net revenue of .... £1,633,764 2s 91d.

In 1850, the gross revenue was only £2,165,849 17s 94d.
While the expenditures were 1,824,562 10s 10d. Leaving a net revenue of .....£840,787 0s 11 dd Again the gross revenue for the eight years, from 1832 to 1839, both inclusive, was £18,246, 587, 12s. 13d., and for the eight years next succeeding the reduction, only £13,848,955 6s 33d—although the franking privilege was abolished on the adoption of the penny postage, and the Government paid postage, at the ordinary rates. The postage paid by the Government in 1847 amounted to £163,855 1s. 7d.

The increasing abuses of the franking privi-lege render desirable some further legislation in respect thereto. The franking as public door ments of matters which are not such: the distributing of franked envelopes to persons not en-titled to the franking privilege; the franking as official" letters which are not such; the use of the frank to cover innumerable circulars for the benefit of others than the parties who frank them, and the franking of letters of other persons, are presented as some of the existing abuses. All these should, in my judgment, be prohibited by severe penalties, and a conviction for such an offence should deprive the offender of his franking privilege. It is also proper that the attention of Congress should be dirthe fact that the penalty of five hundred dollars, imposed by the existing law, is found to be insufficient to prevent the counterfeiting of franks either with or without the assent of the person

[T] In calling attention to Dr. GUYZOTPS Improved Extract of Yellow Dock and Sarsoparilla, we feel confident that we are doing a service to all who may be afficieted with Activitious and other disorders originating in hereditary taint, or from impurity of the blood. We have known instances within the sphere of our acquaintance, where the most formidable distempers have been cared by the use of Guyzolt's Extractof Yellow Dock and Sarsoparilla alone.

It is one of the few advertised medicines that cannot be stigmatized with quackery, for the "Yellow Dock and the "Sarsoparilla" are well known to be the most efficient, (and, at the same time, innoxious) agents in the whole Materia Medica. and by far the best and parest preparations of them is Dr. Guyzott's Yellow Dock and Sarsoparilla. Thirteen years close and almost undivided attention to this branch of special practice has enabled him to reduce his treatment to such a degree of success as to find the most confirmed and obstinate cases yield by a steady attention to the means prescribed. Blindness Cured by Petroleum. We invite the attention of the afflicted and the public generally to the certificate of William Hall, of this city. The case may be seen by any person who may be skeptical in relation to the facts there set forth.

S. M. KIER. "I had been afflicted several years with a soreness "I had been afflicted several years with a soreness of both eyes, which continued to increase until last September, (1850), the inflammation at that time having involved the whole fining membrane of both eyes, and ended in the deposite of a thick film, which wholly destroyed my sight. I had an operation performed, and the thickening removed, which soon returned and left me in as bad a condition as before. At this stage of the complaint I made application to several of the most eminent medical men, who informed me that "my eyes would never get well." At this time I could not distinguish any object. By the advice of some friends Loom, memced the use of the Petroleum, both internally and locally, under which my eyes have improved daily milities the present time, and I have recovered my sight entirely. My general health was very much improved by the Petroleum, and I attribute the restoration of my sight to its use.
