Double Reed Melodeon.

THE subscribers have just opened a very fine Melodeon, of 5 octaves, with double set of reeds, made by the original inventors, Carhardt and Needham, New York city. This instrument is equal in point of power and volume to any small organ, and far preferable to it for sweetness of tone, capacity to stand in tune and facility for transporting. These instruments are made expressly for church use, and owing to the lowness of price are fast superseding the organs. The public are respectfully invited to call and examine this fine Melodeon previous to its leaving the subscriber's warerooms, it having been purchased by a congregation in this city.

GUARANTY FUND, $100,000.

THIS COMPANY offers to the insured ample security and advantages of the Mutual and Joint Stock Plans (as far as practicable), combined, namely: Low rates of premium; an annual return in cash of the profits acquired over the contingent risk of the year; an adequate, but not excessive provision for the future security of members for the whole term of life, with a responsible interest in accumulating fund secured to such members, payable at death, or otherwise upon their surrender; a guaranty fund designed for the permanent protection of the whole company, and also for the present security of those for the whole term of life.

The plan is the only Mutual Life Insurance Company whose rates of premium are based on a fair reduced standard, with a provision for an annually increasing fund (for future security) an exact proportion to the amount of business, and the increasing risk from advancing age among the members.

Kentucky Mutual Life Insurance Co.

GUARANTY FUND, $100,000.

THIS COMPANY offers to the insured ample security and advantages of the Mutual and Joint Stock Plans (as far as practicable), combined, namely: Low rates of premium; an annual return in cash of the profits acquired over the contingent risk of the year; an adequate, but not excessive provision for the future security of members for the whole term of life, with a responsible interest in accumulating fund secured to such members, payable at death, or otherwise upon their surrender; a guaranty fund designed for the permanent protection of the whole company, and also for the present security of those for the whole term of life.

The plan is the only Mutual Life Insurance Company whose rates of premium are based on a fair reduced standard, with a provision for an annually increasing fund (for future security) an exact proportion to the amount of business, and the increasing risk from advancing age among the members.
