Abdeminal Supporters,
ON A NEW AND IMPROVED PLAN.

For sais by Dr. J. W. BRANSTUP, No. 38 Smithfield street, Pittsburgh,
A ing of Contiveness/Pain in the Stomach, Howels, &c., tbal, generally, by examination, I have found in a great many cases, that they have labored under the distressing disease, the Falling of the Bowels, I have fitted some of them with a proper supporter; and a small quantity of imedicine, which have relieved their pain and given them comfort, and some of them had not been well for five or six years. Any person who will call at my office, I can refer them to those who wear them who can testify to the benefits of them. If we have, no Supporters that will fit, we can have them made in a short time. The effect produced by wearing a suitable and perfectly adjusted Abdominal Supporter is often nearly miraculous. The weak voice, is strengthened—the weak lungs supported—the heart ceases its palpinations—the food sits better on the stomach—costiveness is relieved chronic diarrhea is stopped—miscarriages prevented—floodings stopped—whites cured—spin gets stronger—the lady who is unable to walk a soon able to walk well. She who could not sit up alone for a few minutes, can now sit up all day, or as long as any one; falling of the womb is cured, and, in shorter or longer periods toses all us tenderness and weakness, and goes permanently, back to its place. Barrenness, in some cases, gives place to fruituinness, and a way is prepared for yeuries of good health.
