Reception of Workingmen by Kossuth forte manufactory of Bacon & Raven, were received at the Irving House by Gov. Kossuth, t whom they made an address, and presented the handsome sum of \$805 for the cause of Hungary. This amount was raised by subscription among themen in the factory, numbering about ninety altogether. In their address they said-"We are Russians, Swedes, Danes, Hungarimen, and Americans, Swedes, Danes, Hungari-men, and Americans, but are all, in fact or in-tention, citizens of the United States. We glory in the principles of liberty combined in our Declaration of Independence, and desire their ex-tension to all the nations of the world. The extent of our interference is in the future; out principles are for all times; we must act upon those which are necessary to make Washing ton and La Fayette something better than suc cessful traitors and renegades; and Bunker Hill, Saratoga and Yorktown more than bloody fields

of treason and murder, or we are unworthy the name of citizens of the United States." Kossuth replied-"I confidently hope for aid from your glorious country for the sustainment of that struggle, and the prevention of Russian interference. In speaking of Russia, I do not include the people of that country; I refer only to the government, as there is a great distinction between the two. I insist upon the fact that the cause of Hungary is worthy of your generous sympathy and assistance. If the independence of Hungary be not preserved. Bussian despotism will continue to encroach upon European freedom. A foreign correspondent of the N. Y. Commercial Advertiser presents the following picture of Austrian finances : Austria is at present in such a fearful condi-

tion in reference to her finances, that it would be sheer madness to plunge her into external difficulties. Her annual deficit, at the present rate of expenditures, is between sixty and eighty millions of florins, and there is very little prospect of diminishing it for some time to come. The only way to do so would be a diminution of her immense military establishment. A reduc-tion was indeed published a short time since, but on the most favorable calculation it would only make a saving of fifteen millions, which would f course diminish the general deficit very little and it is even said that the order for this redution has been rescinded, in view of the state of things in France. But even supposing it carried out, there are at the same time additions being made which will about compensate for it. Certain new regiments are being formed in Transylvania, amounting altogether, it is said, to about 80,000 men,—and the depreciation of paper money is becoming greater and greater, notwith-standing the late loan which was intended to help it. How it will end no one can tell. The precious metals were going up so rapidly the past week, that the Government, for the the past week, that the Government, for the second time, interfered on Change to put down dealing in them by force. The chief of the poordinates, went personally to the Exchange, in the first place, a dezen of soldiers with fixed bayonets attending him at the door. His presence damped all business, so that the exchange fell immediately two or three per cent. The next day, several brokers were served with notices, that unless they ceased dealing in foreign bills, but particularly in gold and silver, they might expect very un-pleasant consequences. THE MAYORALTY. NOMINATION OF JOHN B. GUTHRIE. The Democratic City Convention, which assem bled in the CourtHouse yesterday, nominated John 3. The unanimity with which this nomination was made, must be gratifying in the highest degree, not only to the personal and political friends of Mr. GUTH-RIE, but also to every citizen who has at heart the honor, dignity, welfare and prosperity of the City of Pittsburgh. From our telegraphic reports it will be seen that a very destructive fire has occurred at the Capitol; which will result in great loss to the ountry—if we may place any reliance upon the reports. This cannot safely be done to any considerable extent, as is fully indicated by the difference between the reports yesterday morning; and those received last night. This, however, we can say with safety,-that the wisdom of Congress will be rendered much less questionable hereafter, if provision shall be made to guard against any similar occurrence in future. Each

alcove might have been made fire proof at a less cost than the replacement of the property that has been destroyed. But our wise legislators have become so beggarly economical of late, that more of the public money is wasted in trying to cheapen everything than would pay honest men for doing business as it ought to be done. We are inclined to believe that incendiarism has caused this destruction of the Library, which is one of the most valuable in the world. Democratic City Convention.
