STEAMBOAT SUSK .- The steamer Eureka was senk on the night of the 30th ult., by a collision with the Corinne, on the Bigbee river. The editor of the Marion (Miss.) Republican, who was on board the Eureka at the time, says: We heard a cry that the boat wassinking, and hurrying through the cabin down to the boiler deck, we were just in time to see the water commence pouring over the guards; and remaining at the foot of the steps till the water reached the tops of our boots, we concluded it would be as well to change locations, and swim to the other boat, where we were hauled on board in an almost congealed state. We have on board a supply of printing paper, types, &c., without insur-suce, and of course lost everything. The boat was insured for \$2,800. New Marker House. There is now a fair prospect, that this scheme, so long talked of, will be undertaken and finished. The old Diamond Market House is a disgrace to the city and the age in which we live. On the same spot, a new building, capable of accommodating double the number of people, can be erected, and there will also be an abundance of room for a Town Hall and Council Chambers. While we are that the spirit of progress is about to find its way into the old Diamond, at the same ind its way into the old Diamond, at the same time we hope the citizens of the Upper Wards will make an effort to have one or more Market Houses erected in such localities as will accommodate their large and rapidly increasing population. In our opinion, a Market House should tion system. be erected somewhere near the head of Seventh street, which would run through from Wylie to Webster street. MONONGAHELA NAVIGATION Co .- At the annumeeting of the stockholders of this company, held yesterday, the following officers were elected for the ensuing year: President-J. K. Moorhead. REDUCTION OF TOLLS.—Why do not our bridge ompanies reduce the tolls of foot passengers to one cent? The cheap postage system has worked admirably thus far, and will work still better percafter. The increase of travel over the bridges, in consequence of a reduction of tolls, would fully keep up the revenues of these companies. Let the experiment be tried for aix months at all events, and if it does not succeed, then let the old system be restored. Who sec onds our motion? ONE WEER MORE.—Mr. Ottinger has concluded o remain one week longer with his gigantic Mirror of California. This is positively his last veek, and the overflowing audience he has had for the last few days shows that his painting is appreciated and justifies his remaining with us onger. As there are a number in the city about leaving for the land of gold, we advise them to call with their friends at the Athenseum and see a correct representation of the land they are about to visit. There will be two exhibition each day this week, commencing at 8 and 71 P. M. The performance will conclude with the amusing farce of "Betsy Baker;" and during the evening Oceana will "fling herself" in one of her most interesting Dances. We observe that Mr. Buchanan is underline for King Leer during his present engagement.
