JOSEPH LIPPENCOTT. W. C. SARR

LIPPENCOTT & BARR,

Manufacturers of Phœnix Fire Proof Safes,

Second street, between Wood and Smithfield.

ON Tuesday afternoon, July 25, 1848, the undersigned witness an honest and fair test of one of their Phœnix Safes. The furnace being prepared, the Safe was placed inside thereof, with books, papers and some money; when the door of the Safe was closed and the fire kindled in a quarter past 2 o'clock, and in a short time the Safe was red hot, and continued till past 6 o'clock, being about four and a half hours, when the committee expressed themselves satisfied that the time occupied with such heat was sufficient. The furnace was then pulled down, Safe cooled, and door opened—the books, papers and money safe. The heat was so great as to melt off the brass mountings. We therefore take pleasure in recommending these Safes to the public, as being, in our judgment, entirely fire proof.

I am engaged in the foundry business, and know something about furnaces and heat. I witnessed the burning of the above Safes, and can freely say there was no humbug about it, and with pleasure recommend them to the public as being, in my judgment, entirely fireproof.

In calling upon the above gentlemen for their signatures, they cheerfully gave the highest terms of the fairness of the test, and their full confidence of the Safes being entirely fire-proof. We have constantly on hand and for sale a full assortment of the above Safes.

Scrofula, Kings Evil, &c.

SCROFULA in all its multiplied forms, whether in that of King's Evil, white Swellings, Chronic Rheumatism, Cancer, Ulcers of the Skin or Spine, or of Pulmonary Consumption, emanating from one and the same cause, which is a poisonous principle, or virus inherent in the human system. Therefore, unless this principle can be destroyed, no radical cure can be effected; but if the principle upon which the disease depends is removed, a cure must of necessity follow, no matter under what form the disease should manifest itself. Jayne's Alterative is always successful in removing these diseases, because it is the best material, and in a style of workmanship equal to the eastern manufactured articles, and at 66⅔ per cent. cheaper.
