Daily Morning Post.

TUESDAY MORNING.....JANUARY 13.

Court of Quarter Sessions.

Present, Hon. Wm. B. M'Clure, President Judge, and Thos. L. McMillan and Wm. Boggs, Esqs., Associates.

MONDAY, *January* 12.—This morning, after the transaction of some miscellaneous business, the case of the Com. vs. Sebastian Follocker, Frederick Follocker, Andrew Banshaw, and Mary Banshaw, for assault and battery on the person of Alexander Walker, was taken up.

The prosecutor testified that these defendants came to his father's house and called him out. He went out, and before he had said anything he was struck with a club in the hands of Sebastian Follocker.

Dr. Penniman testified that he was called in to dress the boy's wound, and found a very serious injury on the nose, the bone being fractured.

John Walker, the father of Alexander, gave the same testimony as his son.

John Piper, for the defence, testified that they all walked towards the barn together, and Sebastian Follocker drew his club and struck Alex. Walker. Did not see any of the others have weapons, or do any thing. There was considerable excitement.

The jury then retired, and, after a short absence, rendered a verdict of "guilty" as to Sebastian Follocker, and "not guilty" as to the others. The Court then sentenced Sebastian Follocker to pay a fine of $50 and costs of prosecution.

Com. vs. Jos. Hall—Breach of the peace. The defendant was convicted and was ordered by the Court to pay the costs of prosecution, and give bail in the sum of $100 to keep the peace for one year.

Several cases of little interest were taken and disposed of, and the Court adjourned.

RESIGNATION OF HON. HARMAR DENNY.—The proceedings of a special meeting of the Directors of the Pittsburgh and Steubenville Railroad, held last Saturday, were unintentionally omitted from our paper of yesterday, having been dropped into our letter box, at a late hour Sunday afternoon. At this meeting, a communication from Hon. HARMAR DENNY was read, announcing his resignation as President of the Company, owing to protracted indisposition, which did not permit of his attendance to the duties of his office, and a fear of that indisposition being prolonged.

Charles Naylor, Esq., offered the following resolutions, which, on motion of Mr. Pennock, were unanimously adopted, viz:

Resolved, That we reluctantly accept the resignation of the Hon. Harmar Denny, as President of our Company, and sincerely regret the severe personal affliction which deprives us of the influence of his name and active services, and which has induced him to offer his resignation.

Resolved, That we heartily thank him for his early and warm espousal of the cause of our road, and for his generous subscription, and that, assuring him of our sympathy, we tender him our best wishes for his speedy restoration to health, and the enjoyment of private and public usefulness.

FIREMEN'S MEETING.—The Firemen of Pittsburgh and Allegheny met in Philo Hall last evening, according to previous notice given. The meeting came to order by calling Mr. David Campbell to the Chair, and appointing Mr. Gaw, of the Neptune, and James Petrie, of the Vigilant, Secretaries. The following gentlemen were named as Vice Presidents, viz: Mr. Brown, Hope; Mr. Peterson, Eagle; J. W. McSherry, Allegheny; Wm. White, Neptune; J. Leyburn, Duquesne; Wm. Price, Niagara; Thos. M. Little, Good Intent; Geo. Cochran, Relief.

Resolutions were then presented, as follows, and unanimously adopted:

Resolved, That the Firemen of Pittsburgh, Allegheny and vicinity, desire to join in the Procession to receive and escort Gov. Kossuth.

Resolved, That the Chief Engineer be requested to submit the foregoing resolution to the Firemen's Association, of this City.

We understand that the Association meets to-night.

RAILROAD ELECTION.—At an election for President and Directors of the Pittsburgh and Steubenville Railroad Company, held yesterday, at the Company's office, the following named gentlemen were chosen to serve during the present year:

President—J. K. Moorhead.

Directors—Saml. Livingston, Henry Graff, Lewis Hutchinson, Thos. S. Clarke, Chas. Naylor, Jesse Edgington, Isaac Walker, jr., Robt. McKnight, Robert Woods, John A. Wilson, J. H. Shoenberger and George Black.

THE CATHEDRAL.—Workmen are now busily engaged in removing the eminence at the corner of Grant and Fifth streets, (upon which the Cathedral, destroyed by fire last May, form erly stood) preparatory to the extension of the foundation already commenced on Fifth street. This structure, when finished, will be the most imposing in architecture, stability and extent, of its kind in the western country. It will front 210 feet on Fifth street and 120 on Grant, and a vast expense will of course be incurred in its erection.

☞ The Thirty-fourth Anniversary meeting of the Young Men's Bible Society, of this City, will be held in the Methodist Protestant Church, Fifth street, this (Tuesday) evening at 7 o'clock. Addresses will be delivered by the Rev. John Cowl, of the Methodist Protestant Church, and by the Rev. A. M. Bryan, of the Cumberland Presbyterian Church. Also, reports of the doings of the Society for the past year will be presented. The public are respectfully invited to attend.

WINTER.—The following prognostication, if there is "anything in it," may be an index to the cold, blustery, snowy, stormy weather, which we have experienced thus far this winter:

CHRISTMAS.

"If Christmas of a *Thursday* be,
A windy winter you shall see;
Windy weather in each week;
And hardy tempests, strong and thick.
The Summer shall be good and dry,
Corn and beast shall multiply."

NEW BOATS.—There are now being finished at our wharf, five large steamboats, three of them of mammoth proportions, all of which are expected to be got ready by the opening of the Spring trade. Pittsburgh can certainly boast of the enterprise and activity of her builders, machinists, &c., in this particular, as well as in all others. We will take occasion hereafter to speak more particularly of these boats, as they approach completion.

FOR CALIFORNIA.—The following are the names of the persons, belonging principally to Allegheny, we believe, who are about emigrating to the Land of Gold: Nicholas Dawson, Wm. Faulkender, Joseph Spratt, John H. Eagle, Jas. Brown, John Mitchell, Alex. Morrison, Charles Kraus, Mr. Brant. We understand they leave this morning. Success to them.

THE STEPS.—The suggestion of Mr. Alden, on Saturday, in relation to the dangerous condition of the Court House steps, has resulted in their having been cleared of the masses of snow and ice which then covered them. The improvement makes it considerably easier and safer to ascend or descend them than formerly.

LAFAYETTE HALL.—The unrivalled Chemical Dioramas are yet attracting universal attention. Mr. Winter has added some new and beautiful scenes, which greatly enhance the interest of the exhibition. Don't miss the opportunity of witnessing them before they go away, or you may regret it.

River Intelligence, &c.

THE RIVERS.—Yesterday evening there were 5 feet in the channel, and falling. Navigation is suspended, there being such a quantity of floating ice in the river as to prevent boats from running.

The Hibernia No. 2, came in yesterday morning, having been much obstructed by ice. If this cold weather continues another day, the rivers will be entirely closed.

BREAKING OF THE ICE AT ST. LOUIS.—We learn from the *Union*, of the 8d inst., that the ice commenced moving early New Year's morning, floating past the city with unusual violence. A huge cake struck the steamer Jewess, as she was coming in port, and in less than five minutes she was sunk nearly to the boiler deck, and totally wrecked, with a very slim prospect for the recovery of her machinery. At the time, she had on board 521 barrels of flour, 400 sacks of wheat, and a lot of green hides, a portion of which was saved. The Jewess was built in this city, in 1847, by Capt. J. Bougher, and was insured in Cincinnati for $2,760, having been valued at $5,000. The Minnesota was broken loose from her moorings, and floated down the stream some distance, but she returned in the evening. The ice also struck several barges and canal boats, and did considerable other damage to property within its reach.

☞ We take the following items from the Louisville *Courier*, of the 7th inst:

Last evening the river was slowly falling, with 8 feet 2 inches water through the Indian, and 7 feet 2 inches in the middle chute, on the falls.—The river had risen 7 inches during the night, but had fallen 1 inch yesterday. The weather was quite cold yesterday, and was freezing hard last night.

At Cincinnati, as we learn by our despatches, the river was falling yesterday, with cold weather prevailing.

The Wabash, Cumberland, and Tennessee rivers are in excellent boating order.

COAL.—We noticed the arrival in the past 24 hours of ten boats, about 100,000 bushels of coal, from Pittsburgh.

The greater portion of the coal was purchased for Lexington, and will be transported over the Frankfort Railroad. Some 1800 bushels go up this morning in the hog cars.

PARODI'S CONCERT.—We attended the Concert given last evening by this justly celebrated Vocalist, and can speak of it in no terms but those of the highest praise. Her singing was the outbreathing of strains of melody so ravishing, so soul-subduing, that language is inadequate to convey an idea of their effect upon the wrapt listener. The Cavatina, from Rossini's Opera of Tancredi, by M'lle Parodi, was rendered in the most exquisite style. And the performances of AMALIA PATTI were but little inferior to those of M'lle PARODI. The sweet and touching cadences of "I mourn thee, but I love thee no more," yet linger in our ears. M. STRAKOSCH, who has long been celebrated as a pianist, we may safely say, has never had an equal appear before a Pittsburgh audience. And the execution of Mr. Arthurson, too, was perfect, faultless, and gave great satisfaction.

To-night she gives her second and last Concert in this city, and her programme presents another of those rich feasts for the lovers of music. Pittsburgh, we know, will on this occasion, give her evidence that her unequalled talents are appreciated.

THE KOSSUTH EXECUTIVE COMMITTEE met last night. A despatch was received from the Committee at Harrisburg, enquiring as to the arrangements made in Pittsburgh, and whether our committee would meet him at Hollidaysburg, where a legislative committee would accompany him.

The Committee on Invitation to Firemen, reported that they had met them this (Monday) evening, at Philo Hall, where they expressed a desire to join in the procession.

The Committee on Banners reported.

Messrs. W. J. Rose, B. Winchester, and Hez. Nixon were appointed a committee to procure carriages.

James A. Mazurie, Capt. Herriott, C. Yeager, D. M'Curdy, R. C. Stockton and John Scott, were added to the Executive Committee.

Wm. Nimick and J. L. Brindle were appointed collectors in the First Ward.

Adjourned till Tuesday evening at 7 o'clock, at Col. Sahl's. Punctual attendance of all is requested.

THE PRINTERS' BANQUET.—The Committees will meet this evening, at 7 o'clock. The Committee of Arrangements was increased on last Saturday evening, to ten, and is now composed as follows:—Messrs. Dumars, Campbell, Rook, Patterson, Latshaw, Forrest, Gamble, Anderson, Telford, and U. H. Myers.

HELD TO BAIL.—Yesterday James Bracken was brought before Judge M'Clure on a writ of *habeas corpus*, and held to bail in $600, to answer a charge of assault and battery with intent to kill Harris Wilkes.

COMMITTED.—George Taylor was yesterday committed by Alderman Parkinson for the larceny we noticed yesterday morning, of a cloak belonging to Dr. Brown, Diamond Alley.

☞ Kirkland, the street preacher, who has been confined in the county jail for some time past, was yesterday liberated, having given the bail required.

ASSAULT AND BATTERY.—Patrick Murphy was yesterday committed by Ald. Major, charged on information of Ellen Hamilton, with assault and battery.

OHIO AND PENN'A RAILROAD.—The express train now leaves the Federal Street Station at 8 A. M., and arrives at 7 P. M.

The Swan of Avon.

Shakspeare's father was a butcher, and as his son assisted him for many years, it is presumed that, for a period at least, he swaggered about like the best "Jakie" of our day. Only just think of Shakspeare, the author of "King John," "Richard," "Henry VIII," the "Tempest," and "Much Ado about Nothing," shouting out to his companions, "Why don't you come along, say"—Shakspeare married Ann Hathaway. She was eight years older than he, but the fact does not seem to have made him any less a master, so far as can be gathered, in family matters. He soon after this went to London, and it is said, having fallen into bad company, became a poucher; but the story is by no means well established, nor is another, touching his earning a livelihood by holding horses at the doors of theatres. Touching poaching, before he went to London, we think he indulged in an adventure of the kind, to annoy Sir Thomas Lucy, the original of his Justice Shallow; indeed it is well known that a satirical ballad, of which he made that worthy the hero, among his first efforts, like to have got him in prison for libel. Shakspeare went to London at the suggestion of a relative, named Green a comedian. He became an actor, but never rose above the Ghost in his own Hamlet. His greatest patron was the Earl of Southampton, who gave him a thousand pounds, it is said, on one occasion. He ultimately became a manager, and what is most remarkable, though the admission to certain parts of his theatre was only a few pennies, retired with a fortune, and spent the remainder of his life in splendid *otium*, at his native place. The house in which he lived, continued in the possession of his decendants until the restoration. Garrick, Macklin, and others, were entertained in 1742, under a Mulberry tree, planted by Shakspeare. The house was subsequently sold to a clergyman, named Gastrel, who, being rated for the poor higher than it pleased him, declared the house should never pay again, and so he pulled it down and sold the materials. He had before this cut down the Mulberry tree for fuel, but a silver smith purchased the whole of it, and made it up into memorials of the past.—The house now shown at Stratford as Shakspeare's, is the one where he was born. He has a splendid monument in Westminster Abbey, but the matchless works which he left, constitute quite as imperishable a memento of his pre-eminent genius. Shakspeare was born April 23d, 1564, and died the same date, 1616, aged 53.

TELEGRAPHIC NEWS.

BY THE O'REILLY LINE.

FROM CALIFORNIA.

Arrival of the Steamer Daniel Webster.

NEW YORK, January 12.

The steamer Daniel Webster from San Juan, whence she sailed on the evening of the 1st inst., and from Havana the 6th inst., arrived this forenoon, bringing dates from San Francisco to the 12th ult. She had on board 255 passengers, and $560,000 in gold dust, principally in the hands of passengers.

The U. S. steamer Saranak, Com. Parker, arrived at San Juan on the 1st, and her visit was supposed to be in relation to the recent outrage on the Prometheus, by the British brig of war Express. The event created great excitement at San Juan.

The steamer Tennessee, with mails from New York to the 11th of November, arrived at San Francisco on the 14th of December, and the mail steamer from that city, was in consequence detained until the 16th, to give merchants time to answer their letters.

It was not known what amount of gold would be dispatched by the mail steamer.

The latest accounts from San Diego, indicate most decidedly, that the Indian disturbances are at an end, and Gov. McDougal had disbanded the volunteer companies which had been formed.

The weather at San Francisco continues delightful. Accounts from the interior speak of frequent heavy rains, which have proved of great benefit to vegetation, and have raised the rivers from five to ten feet. There has not, however, sufficient rain fallen to afford gold seekers in the dry diggings all the facilities they require for successful work.

The papers contain contradictory reports relative to the gold discoveries in Bear Valley; some asserting that the claim has the appearance of having been worked out, whilst others affirm that the first accounts have been fully realized, and that it is a reliable fact the original discoverers have sunk their hole to the depth of 70 feet, and have taken out $400,000.

There had been a moderate business doing at San Francisco during the last fortnight, without any improvement in prices; stocks continuing largely in excess of the demand.

Seamen's wages were firm, and engagements were difficult at late rates.

Laborers obtain from five to six dollars per day, and carpenters and masons from seven to ten. Other mechanical branches are prosperous.

General interests of state are progressing favorably, and all matters continue gradually to assume a more settled and satisfactory aspect.

Miners are generally doing well. Clean gold dust is $17,25 per ounce. Sight bills on New York 4 per cent. Most of the daming companies and others working in beds of rivers had suspended operations.

An extensive deposit of magnetic oxide of iron ore had been discovered thirty miles from Marysville on the Placerville road.

A letter from the Hon. Daniel Webster is published in the San Francisco Courier, which denies the truth of Senator Gwinn's statement that the administration is in favor of selling the mineral lands of California.

The Democratic State Central Committee had called a convention to elect delegates to the Baltimore Convention.

The survey of the Pacific and Atlantic Railroad from San Francisco to San Jose had been completed, and D. R Cobb was shortly to leave for New York to report on the enterprise.

The San Jose Visiter says that the new state house is nearly completed and considers it settled that the seat of government will not be removed again.

Serious apprehensions are entertained at San Francisco for the safety of the steamer McKim, which left Panama on the 26th ult. for that port, with a full load of passengers. The Board of Commissioners had previously pronounced her unseaworthy.

Snow had fallen to the depth of near six feet in the country about Downieville.

A detachment of 70 U. S. troops had proceeded from Benyra east of Monterey to San Diego, previous to the receipt of the intelligence of the dispersion of the Indians and the arrest of the principal leaders, among whom is Antonio and Bill Marshall, a white man who is supposed to be the chief instigator of the late troubles.

FROM THE SANDWICH ISLANDS.

The expedition from San Francisco in the ship Galecock, arrived at Honolulu on the 15th of November, and met with a most kinly welcome from the American and Native citizens, but were viewed with much distrust by English and French residents. As late as the 18th of November every thing betokened a continuance of the most peaceful and satisfactory relations between the expeditions and the inhabitants of the Islands.

The U. S. ship Vandalia was at Honolulu, and should a necessity arise, as some anticipate, would aid in protecting the government.

The U. S. Consul had returned to Honolulu, and resumed his official duties on the 4th of November.

Trade and business was generally dull on the Islands, and the markets were overstocked with all kinds of goods.

Mons. Reny, a naturalist from Paris, was engaged in exploring the Islands, and had made thousand and geological discoveries which were expected to prove of great importance.

XXXII CONGRESS—FIRST SESSION.

WASHINGTON, Jan. 12.

SENATE.—Mr. Seward presented a memorial from 500 citizens of New York city, calling the attention of Congress to intervention by Russia, in the affairs of Hungary.

Mr. Underwood, a petition from citizens of Tennessee, praying that the Louisville and Portland Canal may be made free.

Mr. Hamlin reported a bill for a Marine Hospital at Portland, Me.

Mr. Shields was excused from serving on the Committee on Public Lands.

The private bills which passed the House on Friday, were taken up and referred.

The resolution providing for the printing of the census returns was then taken up, and Mr. Smith addressed the Senate at length in opposition to it.

The House resolution of Mr. McNair, directing the appointment of a committee to inquire into the firmness and stability of the foundation of the extension of the Capitol, was adopted

The House resolution appropriating $6000 to meet the expenses of the fire in the Library of Congress, was taken up, and, with the Senate's amendment appropriating $10,000 to the purchase of books, was concurred in

HOUSE.—Mr Stanley offered a resolution empowering the President, should he deem fit, to extend aid to the Hungarian exiles now in this country, and to supply their wants until they shall obtain employment and homes.

Mr. Gorman made a report from the Committee on Printing, in favor of printing a large number of extra copies of the report of the coast survey, which gave rise to considerable debate, but was finally adopted, when

The House adjourned.

LOSS OF LIFE.

DETROIT, Jan. 12.

Last evening, as the train from the west was coming in, a gentleman and two ladies, driving in a sleigh, crossed the track in the upper part of the city. It being nearly dark, and not seeing the train, as soon as they saw their danger, one of the ladies, Mrs. Hancock, attempted to leap out, and was instantly killed. The others escaped, the locomotive merely upsetting the sleigh over clear of the track.

BUFFALO, Jan 11.

The large building in Central street, owned by John Hollister, and occupied by Worthington & Smith, produce dealers, was destroyed by fire this morning.

LOCKPORT, (N. Y.) Jan 11.

The extensive flouring mills of Mr. Pariews were destroyed by fire yesterday. Loss about $18,000.

KOSSUTH AT ANNAPOLIS.

ANNAPOLIS, January 11.

Kossuth arrived here this morning, and was received at the cars by Mr. O'Neill, Secretary of the Commonwealth, and conducted to the executive mansion.

The Committee of the Legislature waited on him at two o'clock, and arranged matters for his public reception by that body to morrow, Kossuth having consented to remain here until the afternoon, when he will leave for Baltimore by the steamer, and start for Harrisburg on Wednesday.

Governor Lowe gives a dinner to Kossuth this evening, at which many members of the Legislature will be present.

STEAMBOAT EXPLOSION.

SAVANNAH, January 11.

The steamer Magnolia, from Florida, bound to this port, burst her boiler on Friday last, at St. Simon's Island, near Darien. The force of the explosion was terrific, tearing the boat amidships, completely in pieces. Captain McNelly, the clerk, and thirteen others were killed, and several wounded. The boat is a complete wreck. Forty five persons, including the cabin passengers, were saved.

KOSSUTH.

WASHINGTON, Jan. 12.

Kossuth and suite left here this morning, at 8½ o'clock for Annapolis. They were attended to the cars by Senators Shields and Seward, and a large crowd of citizens.

HARRISBURG, Jan. 12.

Kossuth will not be here till Wednesday. He will not reach Baltimore until to morrow afternoon.

INAUGURATION OF GOV. WOOD.

CINCINNATI, January 12.

The inauguration of Gov. Wood took place to-day. In his inaugural address he says he is in favor of the compromise measure—that the time had not come to repeal them. They should have a fair trial. He endorsed that part of the President's message in reference to the improvement of rivers.

FROM CINCINNATI.

CINCINNATI, Jan. 12.

The river has fallen four inches.

No change or transactions in the market worthy of note.

The weather continues cold, and there is considerable floating ice in the river.

BOSTON, January 12.

The House of Representatives of Maine, on Saturday, passed, by a vote of 88 to 84, the following resolution in relation to the intervention of Russia, and in relation of the efforts of Hungary to achieve its independence:

"*Resolved*, That we earnestly desire that the general Government of the United States may exert an influence in some wise and proper manner against all such intervention in the future."

The resolution was mainly opposed by the Democrats.

ST. LOUIS, January 12.

The weather is very cold, and if it continues, the river must close.

Nothing doing in the market.
