DR. BLANCHARD, mad describing case.

Or easily described, that I have determined to address you this letter. Previous to consulting you, I had suffered for several years from the effects of Self Abuse, and feel bound to express my gratulade to you, and to deciare to the world that your course of treatment, both in a moral and physical sense, has been of the most beneficial character. In early life, at school, I learned the habit of Self Abuse, and continued the practice for six years, without being aware of its sinful nature, or the terrible consequences sure to follow its indulgence. I first observed my appetite very much increased; but notwithstanding that, I began to lose flesh very rapidly, and exhibit considerable emeciation. After a time, however, my appetite failed, and I became much debilitated,—the slightest exertion faiguing me exceedingly. My sight became impaired, and I found my memory not so good as formerly. I also experienced a total disability to concentrate my mind on any one idea for even a short time. My legs became very fieble, and tottered in walking I also had great difficulty in retaining my urine. In this enfected condition, my friends advised me to consult the family physician, who sony obtained from me such information as satisfied him of the cause of my complaints. He impressed on me the necessity of relinquishing the habit, pointing out the moral and physical ruis sure to follow its indulgence, but could not care me of its effects which I suffered. The symptoms, nocurnal discharges, inability to retain urine, a flow of seminal order of the family physician, above alluded to advised me to consult you. After a careful perusal of your advertisement, I came to the c WM. E. STEVENSON continues to manufacture CABINET-WARE or every description, at his old stand, corner of Liberty and Seventh streets.
