LIPPINCOTT & BARR,
(LATE SCOTT & BARR,)
Manufacturers of Phœnix Fire Proof Safes,
Second street, between Wood and Smithfield.
ON Tuesday afternoon, July 23, 1848, the undersigned had the pleasure of witnessing the test of one of their Safes. The furnace being prepared, the Safe was placed inside thereof, with the door open, and some money with the door of the Safe was closed and the fire kindled at a quarter past 2 o'clock, and in a short time the Safe was heated and continued in the fire for the space of about four and a half hours, when the committee expressed their satisfaction that the time occupied with such heat was sufficient. The furnace was then pulled down, the Safe cooled, and door opened—the books, papers and money in the Safe found to be in as perfect order as on the first mountings. We therefore take pleasure in recommending these Safes to the public, as being, in our judgment, entirely fire proof. [jy24-ly

I am engaged in the foundry business, and know something about furnaces and heat. I witnessed the burning of the above Safe, and can freely say there was no humbug about it, and with pleasure recommend them to the public as being, in my judgment, entirely fire proof. WM. KAYE.

In calling upon the above gentlemen for their signatures, they (Lippincott & Barr) spoke in the fairness of the test, and their full confidence of the Safe's being entirely fire-proof. We have constantly on hand and for sale a full assortment of the above Safes.
