He took the note, and passed it again on Mr. Nicholson, who keeps a tovern. The young man made a brave defence in the way of protestations of innocence, and entreaties to be allowed to settle the matter amicably, but he was nevertheless committed to jail to answer the charge at the next term of Court.

Sudden Death .- Tuesday evening, a carpente, residing in the Sixth Word, named Means, died very suddenly in a grocery store, as he was returning home from his work. The circumstance of this melancholy affair, as near as we could learn them, were as follows: He was returning from work with some toolslin his hands, when becoming suddenly very faint, he stepped into the Grocery and saked for a seat, saving he was very tired. Before a chair could be handed to him, however, he fell over dead. His wife, who last was shortly afterwards sent for, said that he left home in the morning, in apparently good

Mr. Means was said to be an industrious sober mechanic, and his loss must be most keenly felt by his family.

in the following:
Silica
Alumina
Pur Oxide of Iron
1841 Line, blaynesis, Oxide of Manganese, Water and Loss,

The Powdered Sample, contained in the box, which I suppose was the one you desired the to have analysed, I find to differ from any average of the humps powdered, and mixed together. This last yields as follows:

Per Oxide of Iron,
Silica and Alumina,
Lime, 33,00 Lime, Magnesia, Water and Loss, This difference I presume arises from the mineral not being uniform, some portfonsecontaining more Iron than ollers. The analysis shows the article to be well suitted for a durable paint. I find that by calcining the powder by a pretty high beat, the color is much improved, or at least converted into a line red.
