FRIDAY MORNING.....MARCH 19.

**River Intelligence, &c.**

☞ There were 11 feet of water in the channel last night, and slowly falling. Business on the wharf was more active yesterday, and freights were more plenty.

☞ With her usual punctuality, the Pittsburgh leaves to-day. It is needless for us to say anything in commendation of this largest, swiftest and best boat at our wharf, as her excellent officers, with her superb accommodations, are already proverbially well-known.

*Change in the Weather.*—The delightful weather with which we have been favored for sometime past, yesterday gave place to something of a sterner nature. Cloaks, overcoats, and other appurtenances of extreme cold weather, were brought from the retirement to which the warm rays of the sun had consigned them, and the genial warmth of the fireside seemed doubly pleasant. What we most regret of this change is the mud which it has brought with it, and through which we are obliged to *wade* in all our peregrinations.

*Pittsburgh and Steubenville Railroad.*—At a full meeting of the Board of Directors, of this Road, to-day, the report of the Engineers upon the location and prospects of this great work, was presented, which we shall endeavor to publish tomorrow.

The Board, after adopting the location of the route to a point 10 miles East of Pittsburgh, by way of Cork run, authorized the Chief Engineer to receive proposals for the graduation and bridging on this portion of the route. This looks like going ahead with the right spirit, and we hope to see no holding back by our citizens now in coming up to this important work with liberal subscriptions. Under the present able directory it must go ahead steadily to completion, and that in a short time, if requisite "material aid" is afforded.

*Another Robbery.*—Sometime in the night of Wednesday last, the boarding house kept by Mrs. Wisbey, on Smithfield street, was entered by some cool villians and the pockets of nearly all the boarders rifled of their contents. The thief or thieves, after getting into the house, made a search of all the rooms which were unlocked, collecting together all the clothes of the inmates, and taking them down stairs into the parlor, where they made an examination,—pocketing the money, and laying penknives, pencils, etc. all in a pile. They obtained from the garments of one man 45 dollars, and from the rest various sums, amounting in all to 16 dollars. Officer Hague was sent for in the morning, but the rogues had so completely done their work that it is feared nothing will be discovered.

*Bad Condition of the Hose.*—We observed on Wednesday evening that the hose belonging to almost all the companies at the fire, were in a very bad condition. Indeed, the streams issuing from the leaks in some of them would have put out a small fire themselves, if they had been properly directed. We know our firemen are not deficient in a proper spirit with regard to the good order of their hose, but we are afraid some of the companies are sadly deficient in means to repair the many injuiries which they have received at large fires recently; and we therefore hope that the Councils will endeavor to have this important branch of the fire department properly attended to before any serious loss can result from their present condition.

☞ The Hutchinson Family arrived in town yesterday, and have taken rooms at the Monongahela House. Their first Concert will be given at Lafayette Hall, this evening, and will no doubt be numerously attended.

This noble band have traveled very extensively throughout the country, and have every where received the highest encomiums as musicians.—Their popularity in the east is almost unrivalled, and we have received confident assurances that they more than deserve it.

*Ran Away.*—Yesterday, in the forenoon, a high spirited horse attached to a dray, the owner of which had turned his back for a few minutes, started from near the Monongahela bridge and ran nearly the whole length of the wharf at the top of his speed, causing quite an amusing and exciting scene, by the way he scattered the goods and people around. Fortunately nothing was injured in the least.

*Canal Business.*—From the opening of the Canal on Tuesday, up to 11 o'clock yesterday, 40 boats had cleared for the east, carrying freight to the amount of 2,101,188 lbs, the tolls of which amounted to 1,672 40. The Keystone State, first passenger packet for the season, was started east on Wednesday evening, at 5 P. M., which hour is to be the time for starting, until further notice.

*Disorderly Conduct.*—Constables Kelly and Wales yesterday arrested a man named Joseph Morgan, on a charge of disorderly conduct, who was afterwards committed for trial. It appeared upon examination, that the watch had attempted to arrest him Wednesday night, but he had succeeded in wresting a mace from the grasp of one of them with which he gave successful combat.

☞ Godey's Lady's Book, for April, containing several excellent plates; one of which represents James Watt's first conception of the steam engine, with an original article, together with an unusual amount of interesting reading matter, has been received at Reel & Callow's Depot, opposite the Post office. Also, Dickens' Household Words.

*Fortunate Californians.*—We yesterday had the pleasure of conversing with five returned Californians, who had secured between them in a period short of two years, the large sum of 100,000 dollars. They were all brothers and cousins, bound for their former home in Iowa.

☞ The sale of the balance of retail Dry Goods, Hardware, Queensware and ready made clothing stock, comes off this morning at 10 o'clock, at McKenna's auction; it is worthy the attention of dealers and families.

*Accident.*—Yesterday morning, while passing along St. Clair street, an aged lady slipped and fell, and was so severely injured that she had to be carried home.

☞ On Wednesday night, the locomotive of the express train, on the Ohio and Pennsylvania Railroad knocked down a horse, and the whole train passed over it.

*St. Patrick's Day.*—This anniversary was celebrated in a suitable manner on Wednesday, at the Lamartine House, under the management of Mr. B. Perry.

*Another Aid to the Governor.*—Governor Bigler has recently appointed M. I. Stewart, of Allegheny City, as an Aid, with the rank of Lieutenant Colonel.

☞ The fire in the Athenæum of Wednesday, did not destroy any very considerable amount of goods, the water doing almost as much harm as its antagonistic element.

☞ Hood's Own; selected papers, with illustrations, being the 5th number of Putnam's Library for the People. Received by Woodward & Rowlands, 73 Third street.

☞ A large lot of Dry Goods, slightly damaged by water, will be sold at McClarney's auction House, this morning, at 10 o'clock, on account of whom it may concern.

*Old Wine.*—On Wednesday last, a dozen bottles of wine were dug out of the ruins of a cellar on the corner of Wood and Second streets. It is supposed that they were buried there at the time of the fire in 1845.

*Jail.*—There were seven or eight unimportant commitments yesterday, principally by Ald. Lewis.

☞ Nothing of any general interest was transacted at any of the Alderman's Offices yesterday.

☞ FRESH OYSTERS received daily by Adams' Express, at the WAVERLEY HOUSE, Diamond Alley.

### XXXII CONGRESS—FIRST SESSION.

WASHINGTON, March 17.

SENATE.—Mr. Gwin presented the credentials of Senator Weller of California.

Mr. McRea presented the credentials of Stephen Adams, Senator from Mississippi, to fill the vacancy occasioned by the resignation of Jefferson Davis.

Messrs. Weller and Adams were then sworn in.

Mr. Brodhead presented numerous petitions, asking increased duty on iron.

The bill making a grant of land to Iowa, for railroad purposes, was then taken up and passed by a vote 30 to 10.

The bills granting land to Missouri, Arkansas, and Iowa, for railroad purposes, were severally taken up and passed.

The bill authorising Wisconsin to select the residue of lands to which she is entitled, under the act granting land for the improvement of the Fox and Wisconsin rivers, was ordered to be engrossed.

HOUSE.—The report of Mr. Jones, of Tenn., from the Committee of Conference with the Senate, on the land warrant assignment bill was laid over, after some remarks by Mr. Dunham in reference to the report.

Mr. Fitch noticed the remark of his colleague, Dunham, in regard to the number of land warrants already located, and charged Dunham with having perverted truth.

This created a great sensation. Dunham rose and hastened towards Fitch, and said something making earnest gesticulation. The words were not understood amidst the confusion.

The Chair cried for order, and Dunham retired to his seat, saying that his colleague had made remarks which he could not pass unnoticed.

Fitch—If that is your object, I don't yield the floor.

Dunham made a reply in which he was understood to say—There is another time and place to which I will have recourse.

Fitch replied—Very well. And here the matter ended for the present.

The House then went into Committee of the Whole, on the Deficiency bill.

Messrs. Appleton of Me., Townsend, Olds, and Edgerton, made political speeches, discussing the prospects for the Presidential candidates.

Mr. Townsend said Ohio could not be carried for a compromise candidate.

Adjourned.

WASHINGTON, March 18.

SENATE.—The various Railroad bills ordered to be engrossed yesterday, were taken up and passed.

The non-intervention resolutions were then taken up.

Mr. Jones, of Tennessee, addressed the Senate at length, opposing the Kossuth doctrine of intervention, and Messrs. Cass and Sumner opposed the resolution. He quoted from Washington's writings, Mr. Clay's speech, and President Jackson's message, to show that Mr. Seward didn't broach their opinion. Washington's foreign policy was designed not for the day, but for all time.

Mr. Cass followed, explaining his opinions on certain points, to which Mr. Jones referred.

Mr. Soule obtained the floor, and the subject was postponed until Monday next.

The conference committee on the Bounty Land bill, made a report, which was adopted.

The Senate then adjourned.

HOUSE.—The committee of the whole, on the Deficiency bill,—political discussions resumed.

Mr. Smith, of Alabama, made some hard cuts at Cass—thought he was in his decline and should retire—said his friends should persuade him to retire, as he had been nursed for 4 years and that was long enough. Said the young men of this day could not be expected to hold the milk bottle to second childhood. He also said that Mr. Buchanan could not be included in Young America.

Mr. Marshall, of Kentucky, replied to the remarks of Mr. Brackenridge, in relation to Gen. Butler, and defending Fillmore.

Mr. Waters, also, spoke in reply to Smith.

House adjourned.

### DAILY REVIEW OF THE MARKETS.

OFFICE OF THE DAILY MORNING POST,
*Friday, March 19, 1852.*

REMARKS.—During the week past the weather has been changeable, and part of the time rather unpleasant for out door transactions. Business was brisk, and confined to long rates. Our rivers are in fine navigable condition at long rates. The Canal is now open, and boats are going out heavily laden for the east. We have no particular change to notice in the marks from last week's report, except in Bacon and Molasses, both of which are firm, with an upward tendency. Flour has been on a stand for several days; our dealers generally buying sparingly until receipts of the steamer's news which arrived at Halifax on Wednesday. The news for the Flour and Grain market is rather unfavorable, with a decline in Breadstuffs. At the time of the sailing of the steamer from Liverpool, Cotton was active, on full demand; Breadstuffs quiet; Flour and wheat declined; Provisions in better request; Coffee quiet.

ASHES—The demand for Soda is mainly confined to small lots, principally domestic at 3@3½c cash and time; of Pearl Ash sales 13 bbls and casks, mainly from 5 to 6c, time; of Pot Ash limited sales at 4@5c, as in quality.

BEESWAX is barely supplied with Green at 25@26c.

APPLES—The market is barely supplied with Green Apples, which command from $3,50@4,00 ₱ bbl.

ALE—There continues a regular brisk demand for this article. We quote Manufacturers' prices—regular discount off for cash:
