LIFENSCOTT & BARR,
Manufacturers of
Second street, between Wood and Smithfield.

ON Tuesday afternoon, July 23, 1848, the unexpected witness an honest and fair test of Herring, Lapeyncot & Barr, to Safes. The furnace being prepared, the Safe was placed inside thereof, with books, papers and some money; when the door of the Safe was closed and the fire applied. The heat quickly increased, and in a short time the Safe was red hot, and continued in that state for the space of one hour and a half hours, when the committee expressed their satisfaction that the Safe was equal to anything such heat was sufficient. The furnace was then pulled down, Safe cooled, and door opened—the books, papers and money found in the same condition as when put in the Safe, not even singeing. We therefore take pleasure in recommending the public, as being, in our judgment, entirely fire proof. [ap3-y

I am engaged in the foundry business, and know something about Safes. I witnessed the burning of the above Safe, and can freely say that in my opinion it is entitled with pleasure recommend them to the public as being, in my judgement, entirely fire proof. WM. KAYE.

In calling upon the above gentlemen for their signatures, they responded in the highest terms of the fairness of the test, and their full confidence of the Safe's being entirely fire-proof. We have constantly on hand and for sale a full assortment of the above Safes.
