If he is in the second stage and uses the second bottle his fever leaves him; his disturbed slambers become sweet and refreshing; his might sweats vanish; his expectoration copicus and bloody, assumes a healthy appearance, and at length disappears; his bowels become regular; his appetite returns; the flush in his check disappears; the burning heat in the palms of his hands and soles of his feet are felt notonger; his cough now ceases; he recovers and is well.

If he is in the third stage, and uses the third bottle, his Diarrhwa gradually ceases; his weak bowels become strong; his cough and other bad symptoms disappear; feeble-digestion becomes strong and vigorous; his stomach recovers his proper tone, and creates new, rich and nouvishing blood; his strength returns; his wasted body is clothed with flesh; his LIFE is anytho, and he is restored to health.
