JOB PRINTING, of every description, es couted at the office of the Morning Post in beauattention paid to the printing of Posters and Programmes for Concerts and Exhibitions of all

The Address of the Democratic State several days, will be published in our next. MEMORIAL OF ALFRED GUTHRIE.

the explosion of steam boilers. We have received from the Hon. S. G. Ha- charge an engineer? vens, member from the State of New York, a

printed by order of the Senate.

In regard to the subject of steam boilers, and their management; and Congress has been me-morialized time and again, and has passed sun-dry laws, intended to check the evil and protect

meet as often as may be desmed pecessary, for | . WHIG NOMINATIONS IN MISSOURI.

We understand that the Whig State Convention, the President has recognized William E. Barton as far as nossible the operation of any law which may be hereafter enacted, and to see that all are faithfully and righty and righty and righty and righty and righty of a want of fall march to Mexico and operation of a want of fall march to Mexico and operation of a want of fall and anple supply.
 We understand that the Whig State Convention, the President has recognized William E. Barton as the consult of the State of Col. ALEXANDER W. DONIDAN, for Governor, and JARES WINSTON, for the port of San Francisco, in the State of California.
 Dith Provide the most ample and ortain means for supplying the boilers at all times with water, guarding against a possibility of a want of fall narch to Mexico and — back again, without loaing a man. If he had met the enomy, he would, no doubt have fought them and whipped them. Antheward Duration of the states that the construction of the states for each and every steam-boiler hereafter to be used, and such as will define thereafter to be used, and such as will define thereafter to be used.

used, and such as will at all times afford a cer. but not finding any chance for a fight with powtain and free discharge of steam when suddenly der and ball, he returned home to bide the time when he could have a conflict with paper bullets 7th. Establish a system of inspection that at the ballot box. shall be uniform throughout the country, sub-The Whigs at one time talked about running jecting to bydrostatic pressure every boller to

be used for purposes of steam-power, to three him for U. S. Senator; but that joke was too rich times the pressure to which the engineer shall for even themselves to bear it, and they bestowed at Savannah at Sic 7 10. there the procesure to which the engineer shall for even themselves to bear it, and they bestowed it use it. Sub. Appoint competent, faithful and honest inspectors in such places as the steam navigation of the country shall, require; clothe them with proper authority for the faithful discharge of the important dutics of inspection, giving them a proper control over the conduct of engine even and the management of engines and may change to the the bas been selected for a sac rifice, and he will have to stand it.

We pity him. He deserves a better fate that the one the Whigs have prepared for him.

THE ST. CHARLES HOTEL -- We are pleased to learn that this celebrated Hotel, in the city of Pittsburgh, has been leased by W. S. Campbell ever to subject them to undue pressure. Mr. G. submits with these also drawings and a description of stehm and water indicators, of his own invention, which are said-acting and self-registration, how thick have said-acting and self-toring in the said of the portage Boad. Mr. C. is well qualified to keep a hotel, and we feel assured that he will not only maintain, but registering, by which the passengers can judge and to the reputation of the establishment. He of the danger or safety of the steam and water carries with him the best wishes of an army of in the boilers, and which also can be examined friends for his success. The St. Charles is so no business in a whig caucus, well known as a first class holel, that it is almost by the inspectors, as recommended above. of our readers who may have occasion to visit smokedom, to give the Saint a trial-our word York, who are favorable to his re-election to the unmistakable, as the old fashioned water guage; human ingenuity must stop here." for it, that, like Dives, they will fare sumptu-We are not altogether disposed to entirely con. ously.

We find the above in the Hollidayeburg Standlemn the usefulness of Mr. G.'s "Indicators," yet pages 36 and 37) he desires to make the move- ard. We could not say more in favor of the ents of a complicated system of floats and springs merits of our friend CAMPBELL than the editor have tested it to the satisfaction of military sufficient evidence against an engineer's capa- has published, and we, therefore, adopt his sen- men. Cannon balls will tear them in pieces, tiful style, and on the lowest terms. Particular city, to warrant his immediate dismissal by an timents as a full expression of our opinion of Mr. and scatter the iron fragments in every direc-

inspector. Still he says human ingenuity CAMPBELL's capacity to manage the extensive tion. must stop at the old-fashioned water-guago is and popular establishment designated. We una guide for the engineer, while it is well known derstand that he will take possession on Saturto all who have had any experience in bollers, day, and we wish him all the success that wor-Central Committee, which has been on hand for that the old fashioned water-guage, except in thy merit and high enterprise are entitled to. the hands of an experienced and careful engi- THE WHIG NATIONAL CONVENTION .- The whigs | tally wounded. neer, who judges from other indications as well expect that in their next Convention the follow as the gange itself, that it is very far from beirg ing shades, colors and predilections will be repre A practical Engineer, submitting "The results of infallible.
