I accordingly planted them in the following manner: Commencing upon on one side, I planted two rows of corn, then one of potatoes, and then again two of corn, and so on with the whole piece, planting the rows exactly three feet apart, and the hills about twenty inches in the rows, both corn and potatoes. The corn from three to five grains in a hill, subsequently thinned to three—and the potatoes one in a hill, the size being from one half inch to one inch in diameter. When the corn was about four or five inches high, and the potatoes just coming up, I went through with the plow, turning the furrow from the rows. The plow, turning the furrow from the rows. The plow, turning the furrow from the rows. The the corn was then hoed, without much hilling, and the potatoes were not heed at all. The plow was again run through, turning the furrow towards to the row, when the corn was from twelve to eighteen inches high, and the whole was then hoed. I harvested 385 bushels of corn in the ear, and 125 bushels of potatoes, from the three acres and one-eighth, all accurately measured. The oorn was perfectly ripened, and the potatoes were the finest that I have raised for many years, there being but seven bushels in the whole too small for market. They rottened on some parts of the field; I should think enough to diminish the crop at least 25 bushels. TO THE AFFLICTED—The appearance in three bottles of NUTALLYS SYRIACUM is a newer at an medicine; from its novelty and direct opposition to the old abund and inconsistent ONE BOTTLE SYSTEM; while its success, prepared in this manner, (each bottle containing a different preparation), in curing the different stages which characterize Consumption, has established the welcome truth of the Curabity of very stage of Pulmonary Consumption.

Physicians approve of it because it is based upon correct Physiological and Pathological principles. The public approve of it, because it is Common Sans, and because they know from sad experience that one preparation will not cure the three stages of Consumption.—The suffering, disappointed and discourage invalid approves of it, because its principles hold out a teasonable Hops, and when he uses Nutall's Syriacum, his hopes are realized.

Hops, and when he uses Natall's Syriacum, his hopes are realized.

If he is in the first stage of Consumption, and uses the first bottle, his expectoration, difficult and painful, becomes fee and easy; his cough soon gets well; the soreness, tickling in his throat, inflammation, pain in his breast, side, head, back; joints and limbs are removed. If he is in the second stage and uses the second bottle his fever leaves h m; his disturbed slumbers become sweet and refreshing; his night sweats vanish; his expectionation copicus and bloody, assumes a healthy appearance, and at length disappears; his bowels become regular; his uppetite returns; the flush in his check disappears; the barning heat inthe palms of his bands and soles of his feet are felinolonger; his cough now ceases; hor ecovers and the well.

If he is in the third stage, and uses the third bottle, his Diarthea gradually censes; his weak fowels become strong; his cough and other bad symptoms disappear; feeble, digestion becomes strong, and creates new, fich and nouvishing blood; his strength returns; his wasted body is clothed with fesh; His LIPE IS SAVED, and he is restored to hea'th.

Each bottle of Nutall's Syriacum heaths Symptomes of restored to hea/th.
