They act with greertainty and regularity; the patiental stored to health. With some, the effect is almost mi er having, for months, resorted to drugs and medicines unother description, in vain. Diseases of the Liver re very common in this country, and are often frightful a character. The Symptoms of Dyspeysia are: loss of appellie, nausea, heart-bard, fiaulency; acid, feeld or incotrous en, heart-bard, fiaulency; acid, feeld or incotrous encucations, a gnawing sensation in the stomach when empty, great costiveness, childiness, paleness of the conntenance, langour, lassitude, unwillingness to inove about, lowness of spitits, palpitations of the heart, and distarted elsep. These symptoms vary in different individuals and constitutions and in many cases bring on kidney disease, dropsy, liver complaint, and a debilitated condition of the whole body and a shattered state of the nervous system, that renders like bardensome.

Dr. Radcliffs's dikaline Digratic Bitters are peculiarly adapted to the deranged condition of the stomach above alluded to, and if taken perseveringly, will restore it to a healthy condition. These Bitters are made of some of the most valuable materials of the Materia Medica, and are prepared in a peculiar manner, known only to the proprietor. They do not contain any particle of Sicoloi, and are perfectly and in their operation on the human system. The most inactive and depraved condition of the stomach is often relieved by one bottle—all sourness, wind, pain, and depression of spirits, are entirely removed. How can a man be in health when that great reservoir is diseased. Correct the morbid state of the stomach by taking these Bitters, and Dysposia, with he conversion of the food into chyle,
