**WILLIAM R. KING**,  
OF ALABAMA.  
Subject to the same election.  
FOR SENATE COMMISSIONERS:  
**COL. WILLIAM SEARIGHT**,  
OF ALABAMA.

### NATIONAL DEMOCRATIC CONVENTION

WASHINGTON, D.C., Wednesday, June 3, 1892.

Mr. GEORGE BREVIER, foreman in the Convention, called on us on Wednesday evening to explain the new working of the Convention, although he admits that none of the Journeymen in that office belong to the Typographical Association of Pittsburgh.

The facts, then, are as follows: The Journeymen are not "rats" at least they do not work under wages; but they perform labor and work hours of 12 o'clock on Saturday night and 7 o'clock on Monday morning, which they claim they have a right to do, inasmuch as they have never signed any pledge to the contrary.

On the day of its date we received the following official notification from the Journeymen Printers' Association of this city:

Whereas, Pursuant to Article 12, Section 2, of the Constitution of the Typographical Association of this city, and to the resolution of the Executive Committee of the said Association, passed on the 15th day of May, 1892, we, the undersigned, do hereby certify that the Journeymen Printers of this city have pledged themselves to stand by it, and to maintain their utmost ability, in the execution of the same.

It is reported that the Journeymen Printers of this city have pledged themselves to stand by it, and to maintain their utmost ability, in the execution of the same.

The Journeymen Printers of this city have pledged themselves to stand by it, and to maintain their utmost ability, in the execution of the same.

## WEEKLY MONEY ARTICLE.

We have never known a better feeling in the money market of Pittsburgh than exists at the present moment. Money is abundant, more money every day, and we are inclined to believe by one of the leading banking houses, that large sums have recently been brought to this city from abroad for investment. The consequence of this state of affairs is that the enormous rates of discount recently charged on the streets have been greatly reduced. Money can now readily be obtained on good paper outside the banks at 7 1/2% per cent. Currency is plenty, and at a discount of 2 1/2% on gold. Silver still commands a small premium—1/2% for par, and 1/4% for currency. Good paying stocks are much sought after, and are held at high figures, as will be seen by our tables.

The New York Evening Post, of the 1st inst., says: Money has fallen to four per cent. for call loans, and commercial paper of good grade is in short supply as compared with the market for it. Through the quoted rates are 5 to 6 per cent., yet it is understood that many transactions have been effected at lower rates. A little further ease in the gold market will relieve the market rather than otherwise.

The same paper, in its weekly commercial summary, says: The money market is not so much as it was some months ago, but it is still very tight. The rate for the English market is, however, very large, and the rate for the American market is still very tight. The rate for the American market is still very tight.

The same paper, in its weekly commercial summary, says: The money market is not so much as it was some months ago, but it is still very tight. The rate for the English market is, however, very large, and the rate for the American market is still very tight.

## Rich Men in Boston.

It appears from the "tax list of Boston, for 1892," recently published, that there are in that city seventeen individuals whose annual incomes are half a million and upwards. One on \$800,000 and upwards; sixteen on \$500,000 and upwards; fifty on \$200,000 and upwards; and one hundred and eighty-seven on \$100,000 and upwards. The following is a list of some of the wealthiest:

## NEWS ITEMS.

The Washington Telegraph learns from good authority that Judge Booth and Bradburn, now in that city, have been informed by the President that they must depart for the sphere of their duties by to-morrow, or expect the Executive to send the only alternate to him.

The same paper, in its weekly commercial summary, says: The money market is not so much as it was some months ago, but it is still very tight. The rate for the English market is, however, very large, and the rate for the American market is still very tight.

## European Emigration.

The emigration from the United States to Europe is rapidly increasing, and it is expected that the number of emigrants in the present year will be unprecedented. The principal reasons for this are the high wages offered in Europe, and the desire of many Americans to visit the continent.

The same paper, in its weekly commercial summary, says: The money market is not so much as it was some months ago, but it is still very tight. The rate for the English market is, however, very large, and the rate for the American market is still very tight.
