Counting the Case—The case of the United States vs. James T. McPherson, indicted for one dime, was on trial in the United States District Court on Wednesday and Thursday, before Judge Irwin. Mr. McPherson, the police force, testified that they found counterfeit money in the possession of the defendant, the defendant mentioned in the indictment. The prosecution proved that they found plates of Paris dies, used in making the coin, at the prisoner's residence, in Allegheny city, after they found medals, medals of the same metal, and other parts of the house. On the part of the defense, a good character was proved by several respectable witnesses. It was also maintained that the dies and medals were placed at his residence, by a person named "Tommy".

The Jury in this case were out all day yesterday, and had not returned a verdict last evening when the court adjourned. Messrs. Switzer and Reed appeared for the prosecution, and Black and Shannon for the defense. Messrs. Switzer and Reed were assisted by Edward Ledy, second mate of the steamer Clara Fisher, upon a man who was engaged, while in putting coal on board that boat, was being driven by the engine. The driver of the express wagon, Mr. Johnston, was very badly injured, the wheel of the express wagon having passed over his abdomen. The driver of the coach, together with a person connected with the express wagon, were also badly injured.

Detention—The freight train of the Ohio and Pennsylvania Railroad, which was delayed on Tuesday morning, in consequence of a large rock falling on the track last night. The engineer discovered the obstruction, and endeavored to stop the train—but was unsuccessful, and the locomotive was slightly damaged by coming in contact with the rock. The express line proceeded on the regular trip.

Fellow Miners—This band, it is announced, will give six concerts in this city. They rank among the first in the country, in point of excellence. These of our readers who desire to patronize such shows, need not wait at the opportunity pass without attending.

Canal Goal—We have in our office a very specimen of Canal Coal from the Darlington mines, in Beaver county. The piece was taken out of a bed of canal coal, fifteen feet thick, and immediately over a stratum of common bituminous, fourteen inches thick, a nucleus of which from the Ohio and Pennsylvania Railroad is about being constructed to Darlington, which lies a short distance from the road, and the coal will then find a ready market.

Politicians, Look Out—The spring parades of the uniformed militia will take place as follows: Monday, May 11, 10 o'clock; Tuesday, May 12, 10 o'clock; Wednesday, May 13, 10 o'clock; Thursday, May 14, 10 o'clock; Friday, May 15, 10 o'clock; Saturday, May 16, 10 o'clock; Sunday, May 17, 10 o'clock. The parades will be held at the following places: Monday, at the City Hall; Tuesday, at the City Hall; Wednesday, at the City Hall; Thursday, at the City Hall; Friday, at the City Hall; Saturday, at the City Hall; Sunday, at the City Hall.

Stealing a Coat—A woman named Mrs. Wiggins, of the Fourth Ward, yesterday committed Michael Shay to prison, charged, on oath of Ezekiel Day, with larceny of a coat. This is the same man who was sent to prison for stealing a coat from the same woman, and who was discharged for want of evidence. Mr. Day identified the article by a mark on the coat. Officer Wiggins has in his possession a coat and razor found in the possession of the defendant.

Men Killed—We learn from the Hollidaysburg papers that a man was run over by the down train of cars on the Portage Railroad, near Tyrone Station, and instantly killed. He was a stranger, and it is presumed that the accident was caused by his attempting to get on a car which was full of passengers. The train was passing over a bridge, and the man was struck by the front of the train. He was killed instantly.

Robbery—Some robbers entered the Emmet Hotel, in Allegheny city, on last Saturday night, and stole upwards of \$100 worth of clothing. From the inmates, they had brought several trunks from the upper part of the hotel. The first robbery, and were engaged in rifling them of their contents, when one of the inmates made some noise, and they decamped with their booty.

Parole Contest Money—A man named Louis Long was arrested yesterday, charged with having passed a ten dollar note on the Mifflin Bank of Pittsburgh, and with having stolen the note. The defendant is a young man, and was charged with passing the note on the Mifflin Bank of Pittsburgh, and with having stolen the note. He was arrested yesterday, and is now in jail.

John Simonds—The following are the dimensions of this rigging:—Length on deck, 320 feet; beam, 40 feet; hold, 9 feet; the hull was built at Freedom, by Graham & Co., and is the heaviest ever built on the western waters. The cylinders are 33 inches in diameter, with 10 feet stroke; there are six boilers 40 inches in diameter, and 35 feet in length. The engines were built by James Nelson & Co. The wheels are 40 feet in diameter, with 14 feet stroke. There are two cabins, one above the other; the first cabin forward is for the officers, the center for deck passengers, and the after cabin for a nursery, connected by a stairway with the ladies' cabin. The main cabin is 18 feet wide, and 300 feet long. It was designed by C. G. Gehring and James Milligan, and the interior decorations are in the Gothic style. The other appointments to the steamer, were furnished by various Pittsburgh merchants and mechanics. The steamer is also furnished with a machine, worked by steam, for the purpose of hoisting and lowering the anchor.

The John Simonds is to leave this port, under the command of Capt. Norman Bohrer; she is owned entirely by Capt. R., and his brother Mr. Obey Bohrer, who is first engineer.

Accident—The express wagon of Adams & Co., and a stage coach, running between Beauty's Station and Turtle Creek run into each other at Beautyville, on the Eastern P. R., yesterday morning. They were coming down high hills, at full speed, and their headway could not be stopped before they met at the foot of the hill, which produced a terrific collision. The driver of the express wagon, Mr. Johnston, was very badly injured, the wheel of the express wagon having passed over his abdomen. The driver of the coach, together with a person connected with the express wagon, were also badly injured.

ENGLAND

The demand for California gold had improved on the 23d, and the London price was leading upward. In the case of Alderman Solomon, a writ of arrest was being presented to obtain the detention of the highest judicial tribunal. SOUTHERN INTELLIGENCE. BIRMINGHAM, May 6. Two southern mails were received this morning. Col. Meigs, bearer of dispatches to the Mexican minister at Washington, had arrived at New Orleans. The Plymouth says he has under charge important papers relating to the Tehuantepec question, which we trust will aid in bringing about a speedy and favorable issue. He has also a copy of the report of the committee on the five steamers for the Mexican Government. The terms from him that the grant of Right of Way privileges to the Tehuantepec railway, by the Government, and that arrangements are on foot for sending steamers at once upon the route between New Orleans and Vera Cruz. The Plymouth doubts the truth of the report that the Tehuantepec treaty had been rejected by the Mexican Congress. No paper but the Freeman, the bitter enemy of the Treaty, announces it.

A horrible outrage was committed on a young woman at Savannah on Sunday, by a negro man. The woman was traveling on the Savannah and Florida Railway. The negro man was seen to enter the woman's compartment, and to commit a violent assault upon her. The woman screamed, and the other passengers in the train rushed to her aid. The negro man was seized and taken to the police station. He is now in jail, and is charged with the crime of rape.
