Drnge and Medicines. Dr. De Laney's Celebrated Curative In-CABINET

The only Infallible Cure for that Dreadful Duce known as Spermatorrhea or Involuntary Noctur-nal Emissions,

O burassing and destructive, and productive of so

Much mischief to the nervous system, incopacitat-ing the man for business, society, and matrimony.

This this function is simple; comprehensive, and never-failing, and may be used without the slightest inconve-nience or the knowledge of the most infunct circum-tisto be used externally, producing no pain or injury whatever, nor proceeding any one from attending to his business; and while in use not a single chiusnon can take place, invigorating the organs, in a thort sime, to of herexian, unclosed of the cause of the thousand concomitant complaints, viz: Nervokeness, Prostration, Dyspepsin, Pain in the Head, and Dimness of Vision, Weakness of the Back and Lower Extremities, Affections of the Eyes, Impostence, Pinplots of the Face, Promature Decline of Virility, Weakness of Memory and Power for Mental Application, Defection, Averaion to Society, Timidity, Sell-Distrust, Love of Solitude, &c. All these complaints invariably disappear as soon as the sources is stopped from which they temanated.

This Instrument has been examined and approved of by the highest authorities in Europe and America, is recommended by the most prominent Physicians of all countries, as the only certain remedy existing for thate complaints, and has now completely superseded the use of drugs, the bougle, enterization, &c., not to mention the thousand advertised nostrums of the day, as certains, and those, &c. &c.: Ir constitutes, at the same time, the tained.

Be it also remembered, that those complaints are but little understood by the profession in general, and that all the medicine in the world never has, and never will, stop those losses, which, it allowed to continue unchecked, are sure to produced the most distressing consequence. sequences.

It has been a matter of surprise to some, that my one of respectability and of professional attainments should devote his attention to discases which people of every description pretend to cure so easily. If, however, but the one thousandth part of the miseries these people bring upon society were known, a very different opinion would be formed. And it is not only the present misery and dejection; preying on the mind as well as the body, that is deplored, but some are of such a nature as to uffect posterily, and even to destroy the reproductive faculty, altogether. It is a fact that, when not properly treated, they may remain so dormant in the constitution as to ap-"instruments," which however, bear not the stieff as the resemblance, neither in form nor, principle. On my own invented, long tried, and universally approved instruments, and which are as similar to them as night is to light.
