At the present writing, the hopes and chances | lar. of candidates appear to be in an active state of transition. The great bone of contention is the Sheriffulty, and the contest is between Messrs. Jones and Magill. The street report is that Mr. Jones is certain of the nomination, but the Gazette, which appears to be the special organ of Mr. Magill, sums up a large majority of delegates for that gentleman. The Journal, on the hand, figured up on Monday morning, an undoubted majority for Mr. Jones, and having predicted his nomination it is determined to stick to it, and now says it will not change its figures. For our part we think that both the organs of the party are wrong in their preferences. If we were allowed a vote in the nominating convention, we would go for Mr. Weaver. He has served the people in the office of Sheriff, and should he get the nomination, we are confident he would drive every competitor before him.— But it appears that his merits have been overprehensive that he cannot make a figure in the Convention to-day. But "sufficient for the day is the evil thereof," and if either Jones or Magill is nominated, we will have sufficient labor

FLYING VISIT TO CLEVELAND.

The Senior Editor of this paper made a flying visit to Cleveland, a few days since, going to Wellsville by the admirably managed and swift running steamer "Forest City," and from thence to Cleveland by the cars,—being the first time land and Pittsburgh Railroad. Capt. MURDOCK abstract of the testimony taken, wholly om o'clock. The cars start at 1 o'clock, and arrive in Cleveland at 1 before 6, P. M. This is in all respects a delightful route during the summer season, as it affords a variety of scenery which

must be pleasing to every lover of nature. Between Alliance and Wellsville, the work on the Railroad is of the very best description, fully equal to the Northern end of the road. The ridges over Yellow Creek are of the most subtantial character, and the big cut at the Summit is a master piece of work. The same gentlemanly and efficient Conductors who commenced on the Cleveland and Pittsburgh Railroad, when it first opened, Messrs. CLELAND and CURTISS, are still in the employ of the Company. They are perfect Napoleons in their line of business. It is a fact worthy of being placed on record, that since the opening of the Cleveland and Pittsburgh Rollroad, there has not been an accident of any description along its line, whereby human life has been put into jeopardy, although

It is the most Edenic place to be found this side of eternity; and were not all our hopes and fortunes centered in Pittsburgh, we should certainly take up our abode in that Model City for the balance during the Presidential campaign, for 50 of our days. The people of Cleveland are justly cents per copy. The first number will be sent proud of their city, and they take a peculiar immediately after the action of the Baltimore pleasure in showing it to strangers. The city is increasing rapidly in population, and there are many new store rooms and dwellings now in

We have known instances within the sphere of our nequalitance, where the most formidable distempers have been cured by the use of Grizoll's Extract of Yellow Dock and Sarsoparilla alone.

It is one of the few advertised medicines that cannot be stigmatized with quackery, for the "Yellow Dock" and the "Sarsoparilla" are well known to be the most efficient, (and, at the same time, innoxious) sgents in the whole Materia Medica, and by far the best and purest preparation.
