THE subscribers have just received from New York and Boston a most splendid stock of VENEERS, and are manufacturing by machinery Furniture suitable for the trade. All of which we will sell at extremely low prices. cess in all cases of FEMALE WEAKNESS ANDGENERAL DEBILITY. Strengthening the weakened body, giving tone to the various organs, and invigorating the entire system. If the testimony of thousands of living witnesses, from all parts of the country, can be relied upon, it is singularly efficacious in curing all Humors, and restoring debilitated and broken down constitutions. It is purely vegetable in its composition, and so accurately combined in its proportions that the chemical bytanical and medical properties of each ingredient harvonivally unite to PURILY THE BLOOD.

It has removed many chronic diseases which has baffed the skill of the best physicians, and has also cared Canker, Salt Rheum, Erysipelas and Scrofdia, which Sarsaparilla Syrups entirely failed to make the leastimpression upon.

It has been tested in many cases of CANCEROUS HUMORS. The most obstitute Cancers have been cared by this medicine. We say that it is a valuable medicine in all BILIOUS COMPLAINTS. It removes all obstruction in the circulation, rendering the Liver free, active and healthy. It removes Palpitation of the Heart, and relieves in all cases of Ashma, and may be used in all climates, and at all acasons of the year.

This Syrup is prepared only by C. MORSE & CO., at 109 Fountain street, Providence, R. I., and sold wholes ale and retail, by S. N. WICKERSHAM,

D. EMERSON.

IJ Reed the following, and see if this medicine is worth a trial. The ratient had become very jeeble, and the effect of the medicine was unmistakably distinct:—

UMITED STATES HOTEL, SARATORA STRINGS, 1

Dr. J. C. Ayer, —Sir: I have been afflicted with a painful affection of the lungs, and all the symptoms of settled consumption, for more than a year. I could find no medicine that would reach my case, until I commenced the use of your "Cherury Perforal," which gave me gradual relief, and I have been steadily gaining my strength till my health is well nigh restored.

While using your medicine, I had the gratification of curing with it my reverend friend, Mr. Truman; of Sampter District, who had been suspended from his parochial duties by a severe attack or bronchilts.

I have pleasure in certifying bese facts to you And am, sir, yours respectfully,

J. F. CALHOUR, of South Carolina. ALL OTHERS MUST BE SPURIOUS. LUCIUS 8, COMSTOCK of the advantages of Insurance, as well as the ability and disposition to meet with prompiness, all liabilities.

410 Liberty st. Pintsburgh. AM a Physician by profession, of the regular order, and as such, have always viewed patient medicines with a skeptic eye.

Last spring, when I sent to Philadelphia for my bill of medicines, I was prevailed on by my brother, to put in my bill an item of two dozen vials of your Verminge; be assiding to me that it was a valuable preparation, having tried it in his own family. Accordingly, I sent for two dozen vials. I have used it all, and I must confess that my expectations were more than realized—its results were truly astonishing, removing Worms in every instance, when properly administered. If you will send me a box containing a gross, and send me the bill, I will send you the money for them by muil or otherwise, as you may direct.

Beware of counterfeits and imitations.

PUDDER & FORD,

Manufacturers and Dealers in

MANCHESTER MINERAL PAINT

ALLEGHENT CITY, PA. ALLEGHENT CITY, PA.

New York, December 15th 1851.

I have snalysed a sample of MANCHESYER MINERAL PAINT, for Pupper& Ford, and find it to contain the following:

Silica, 67,91
Alumina, 5,14
Per Oxide of Iron, 18,44
Lime, 68
Magnesia, 24 The Powdered Sample, contained in the box, which is suppose was the one you desired also to have analysed, I find to differ from any average of the lumps powdered, and mixed together. This last yields as follows:

Per Oxide of Iron, 53,50 Silea and Alumina, 33,00 Lime, 88 Magnesis, 16 Water and Loss, 7,96 This difference I presume arises from the mineral not being uniform, some portions containing more from than others. The analysis shows the article to be well suited for a durable paint. I find that by calcining the powder by a pretty high heat, the color is much improved, or at least converted into a fine red.

The analysis of the color is much improved, or at least converted into a fine red.
