BOSTON BOOT AND SHOE MARKET, June 5—The Shipping List says the market has been quite excited the past week. The prices of Sole Leather have ndvanced rapidly, and are still tending upward, and this has had a corresponding effect on the prices of bonts and shres. Parties acquainted with the detais of the leather trade for some time past must be aware that it has been selling below the true value, and the production in the sense of the leather trade for some time past must be aware that it has been selling below the true value, and the production of hides at all the principal ports have greatly failen of compared with previous years, and the price of this article has advanced lately fully 3c. & B, which will also have a tendency to limit the production of leather and make it cost high.
