The case the certificate of William has besteriled in re-"I had been afflicted several years with a sorehess "I had been afflicted several years with a soreness of both eyes, which continued to increase until last September, (1850), the infiammation at that time having involved the whole lining membrane of both eyes, and ended in the deposite of a thick film, which wholly destroyed my sight. I had an operation performed, and the thickening removed, which soon returned and left me in us bad a condition as before. At this stage of the complaint I made application to several of the most eminent medical men, who informed me that "my eyes would never get well." At this time I could not distinguish any object. By the advice of some friends I commonned the use of the Petroleum, both internally and locally, under which my eyes have improved daily until the present time, and I have recovered my sight entirely. My general health was every much improved by the Petroleum, and I attribute the restoration of my sight to its use.
