We hear but little from Filmois, lown and Missouri, but considering the searchy of last season, it is more than probable there will be an interese, rather than a falling off, as we seldom have two seasons of searcity.

Throughout Obio we learn that more young hogs are being fed than usual, and in many sections an increase of one-third is amicipated. The bigh price of Pork, has much care and attention upon their pigs as they do upon their children. Throughout many sections of the South the planters are making strong endeavors to "grow their own meai?"
