[] A Most Remarkable Case of Tstal Blindness Cured by Petroleum—We invite the attention of the afflicted and the public generally to the certificate of William Hall, of this city. The case may be seen by any person who may be skeptical in reliation to the facts there set forth.

S. M. KIER. intion to the facts there set forth. S. M. KIER.

If had been afflicted several years with a soreness of both eyes, which continued to increase until last September; (1830), the inflammation at that time having involved the whole lining membrane of both eyes, and ended in the deposite of a thick film, which wholly desiroyed my sight. I had an operation performed, and the thickening removed, which soon returned and left me in as bad a condition as before. A this stage of the complaint I made application to several of the most eminent medical men, who informed me that "my eyes would never get well." At this time I could not distinguish any object. By the advice of some friends I commenced the use of the Petroleum, both internally and locally, under which my eyes have improved daily until the present time, and I have recovered my sight entirely. My general kealth was very much improved by the Petroleum, and I attribute the restoration of thy sight to its use: I reside at No. 103 Second street, in this city, and will be happy to give any information in relation to my case.

Pittoburgh, September 17, 1851.
