checked, are sure to produced the most distributions of the sequences. It has been a matter of surprise to home, that any one of respectively and of protestional attainments should devote his attention to discasses which people of every, description pretend to care so easily. If, however, but the one thousand in part of the miseries those peoplebring upon society were known, a very different opinion would be formed. And it is not only the present misery and dejection, preping on the mind as well as the body, that is deplored, but some are of such a nature as to affect posterity, and even to destroy the reproductive faculty, altograder. It is a fact that, when not properly ireated, they may remain so dormant in the constitution as to appear any destroy.
