FUDDER & FORD,

Manufacturers and Dealers in

MANCHESTER MINERAL PAINT,

ALLEGHENY CITY, PA.

New York, December 16th, 1851.

I have analyzed a sample of MANCHESYER MINERAL PAINT, for FUDDER & FORD, and find it to contain the following:

Silica,	67.21
Per Oxide of Iron,	18.41
Alumina,	.68
Lime,	.38
Magnesia,	.18
Oxide of Manganese,	trace
Water and Loss,	8.00
	100.00

The Powdered Sample, contained in the box, which I suppose was the one you desired me to have analyzed, I find to differ from any average of the lumps powdered; and mixed together. This last yields as follows:

Per Oxide of Iron,	33.00
Silica and Alumina,	52.94
Lime,	.15
Magnesia,	7.96
Water and Loss,	100.40

This difference I presume arises from the mineral not being uniform, some portions containing more iron than others. The analyst shows its article to be well suited for a durable paint. I find that by calcining the powder for a suitable time, at a fine red heat, the color is much improved, or at least converted into a fine red.

C. A. M'NAULTY & CO.,

Canal Basin, 4th and 410 Penn street, Pittsburgh.

HAVING increased our facilities and otherwise improved our arrangements for Transportation, we are now prepared to receive a large amount of Produce and Merchandise, to ship (on the opening of the Canals,) with promptness and dispatch.

The Section Boat system of transportation over our State improvements has been in use about ten years, and the great success and favor it has met with, is a sufficient guarantee that it is no longer considered a doubtful or uncertain experiment; but is acknowledged by all as vastly superior to any mode of transportation used on Canals, (when intersected by Railroads.)

Goods loaded into our Boats at Pittsburgh, remain undisturbed until unloaded at our Warehouse in Market street, Philadelphia, thereby entirely avoiding the delay consequent on three different transhipments, and securing the delivery of Goods in entire lots, the packages clean, and in as good order as when shipped.

Produce, &c., consigned to our House at Pittsburgh, will be received and forwarded always at the lowest current canal rates, strictly according to instructions, without any extra charge for commission, storage, or advancing charges, &c.
