OPENING OF THE RAIL ROAD TO WOOSTER.

Having just returned from this celebration, we have neither time nor space to give it such a notice as it deserves. An extra number of cars were placed upon the Road on Tuesday morning to accommodate all who desired to take part in the festival, and they were crowded to excess .-When the train arrived in the neighborhood of Wooster, the entlinsiasm of the people exceeded any thing we had ever seen before. It would be folly to attempt to enumerate their numbers. For miles along the Road, the visiters were hailed with cheers from the tens of thousands, and their shouts were echoed loud and long. When the passengers left the cars, they were received with the firing of cannon and the enthusiastic cheers of the citizens. The vast multitude then marched to a beautiful grove in the neighborhood of the city, where the most ample arrangements had been made by the people of Wooster, to accommodate their guests in the way of a well pro-

pared dinner. The ceremonies of the day commenced with an appropriate address from Judge Dean, who had been selected to welcome the visiters to Wooster. He was replied to by Gen. Robinson in a few felicitous remarks, after which the com- rumored massacre of Capt. There was not one who came away from the celebration, that does not consider it an event to be remembered, and only long for an opportunity to reciprocate the hospitality of their generous friends in Wooster.

The invited guests from Pittsburgh, Allegheny, Salem, Canton, Columbiana, Massilton, &c., in attendance to celebrate the opening of the road to Wooster, met in the American House yesterday morning, when the Hon. J. B. GUTH-RIE, Mayor of Pittsburgh, was called to the Chair, and D. M. CUBRY appointed Secretary. After which, the following gentlemen were appointed a committee to draft resolutions expressive of the sense of the meeting:

Thos. Phillips, Pittsburgh; James Callen, Allegheny; Gen. Dwight Jarvis, Massillon; Jesse Allen, Salem; Dr. Geo. Meitzer, Columbiana; John Saxton, Canton; M. Merriman, Crawford. S. Cleaver. It is but an act of justice, however, to the skilful inventor, to mention (and, doubtiess this fact must have been brought before the view of the learned and impartial Committee who awarded to him the Medal), that his success was not the result of chance, nor the work of a momentary enterprise, but the fruits of long and careful study, joined to a knowledge of those materials which, by chemical combinations, and an exact analysis, has rendered his labors honorable to himself and useful to the world.
