The scrip matter must be explained, and we can inform the Gazette and all others, that they cannot change the issue by flippant folsehoods. We have treated Mr. Magill position towards him, personally, we have no idea that the scrip matter shall rest in obscurity. We, with the whole community, desire it to be brought to light; and if the editor of the Gazette cannot obtain information from Mr. Magill himself, perhaps his friend Barker, who he has endornel ne a road whig and no original Taylor man, will give him some useful information .-We desire the editor to ask Backer for his statement. It is said to be made up of facts and figures, and when published, will be highly interesting to the tax-payers. Will the Gazette publish it? The people desire him to do so.

That very truthful and consistent sheet the Pittsburgh Gazette, has had a great deal to say, within the last few days, in regard to "Judge Woonward's Nativelsm." The Editor appears to be in a very distressed state of mind on this subject and has worked himself almost into the belief that the Post admits the truth of all the ridiculous allegations and deliberate falseboods set forth in the Gazette. If Judge Woon-WARD had the slightest affinity with Nativeism, that fact would constitute a strong argument why the Dencon and the Ittile squad of proscriptive politicians who believe with him, should support that distinguished jurist and true-hearted Democrat. But instead of Judge W. being a Native, the very reverse is the truth, as we shall have it in our power to show in a few days .-We have written for some documents on this subject, which, we undertake to say, will triumphantly vindicate Judge WOODWARB from the malignant assaults and lying abuse of the federal press. In the meantime, until they arrive, we would advise the editor of the Gazette to continus his abuse of our candidate for the Sunrama Bench. We yesterday heard of three Whigs who had avowed their determination to vote for Judge Woodward in consequence of the course pursued by the Gazette. Go on with your abuse Deacon—go on!

"GLASS HOUSE RIPPLE."

This is unquest onably one of the worst spots in the Ohio river, and during such low stages of water as we have at present, it is a perfect terror to steamboat men. This ripple is immediately opposite the borough of Manchester, at the head of Brunot's Island. On Tuesday evening we saw four fine little steamers hard aground there, and it was not until they were actually lifted up by "sparring," that they were permitted to go "on their winding way." Cannot something be done to remove the bar at "Glass the attention of our citizens in an especial manner. The Late Calamity on the Hudson. The late awful calamity on the Hudson river n board the Steamer Reindeer, appears to have een more frightful than was at first reported From publications made in the New York papers of Monday, we learn that up to 6 o'clock on Sunday evening, the dead bodies of 26 persons were found, and 20 others were badly scalded. The auso of this sad calamity was the explosion

fone of the pipes connecting the flues; which certainly must have been defective, as the boar was carrying only 80 pounds of steam to the square inch, while she has a certificate for 45 inches of steam. We traveled up the Hudson on the REINDEER a ew weeks ago, and never have we been on board s boat whose movements pleased as more. Her

regular running speed was 20 miles an hour which was accomplished without in the slightes manner endangering the safety of the passen gers. Her captain was one of the most careful men we have over seen in command of a steamboat. Accidents will happen, however, it matters not how careful steamboat men may be.-The REINDERE Was not a racing boat. Her owners and officers set their faces against that spocies of crime. Their ambition appeared to be to carry passengers with safety. These facts were fully proven before the Coroner's jury, whose verdiot we give below:
THE VERDICT.

The jury after a very short deliberation, agreed on the fol-lowing verdict:—That the above named persons came to their deaths, each and every of them; by suffociating and scalding, while on the steamer Beindeer on her passage from New York to Albany. And the said jury do further find,

DUELING IN CALIFORNIA. California is rapidly progressing in civilization

Dueling is becoming quite as fashionable there the Mon as in the Southern and South-western States .-In this sport the Editors of California appear to e cutting a prominent figure. A few weeks ago Mr. Nugent, Editor of the San Francisco Herald, fought a duel with an alderman of that city, and was seriously, but it is thought not fatally, wounded. Recent accounts state that another inel has been fought between Mr. EDWARD GIL-BERT, one of the editors of the Alta California, and General Duence, which resulted in the death took to the lakes has not purified him of that of the former. Priends and Fellow Citizens, I congratulate you uppn this large—this imposing meeting. Old Berks is a county eminently worthy of such a display as appears on the present occasion: We have met together for the purpose of rolling the Democratic ball, and a vast impulse ought to be given by this day's proceedings to the county of Berks. We have sessmbled, not for the purpose of raising shouts to military glory—we have assembled, not for the purpose of raising shouts to military plory—we have assembled, not for the purpose of stabilishing Soup Societies, Ilaughter) or "yeas and Feather" clubs, but for the purpose of sustaining the everlasting principles of the great Democratup party of the country [applause]—The good old cause of Democracy has brought us together—that cause which has always been sustained by Berks county [cheers]. And what county in the Enited States deserves higher cominedation and respect from the Democratic party, than the country of Berks? Gentlemen; in the days of the Revolution—when dark clouds lowered over the country, no county fought more gallanity against the sustained of her illustrious forefuthers in two of Democracy and I am happy to say—for I know it to be after, that when the Mexican war commenced—when it was necessary that tout hears about the expectation. the Mexican war commenced—when it was necessa stout hearts should be appealed to—Berks sent fort men—leaving all the domestic binforts of family an to the sent of wer than any other county in the Co

there are so, many gentlemen here—strangers—who have

There was the first and the only attempt I have ever known at revolution in this country. An old anti-Masonic andidate had been elected Governor of this State. The new constitution had continued his power until the 50th of January, 1839. The anti-Masons and the Whigs then had their Governor. The Legislature met on the 4th of December, 1833. Now, all they had to do was to secure a majority in the Legislature, as the Governor would aign any bill they might include the specific was no seto at that time. There was no
