We had neither time nor room yesterday to noice the ravings of the Gazette on the question of the Sheriffalty or to record its admission that scrip has been taken illegally by some persons connected with the county offices, but we will attend to it to-day. I hope there is no adopted citizen in this country, whose heart is guilty of such a sentiment of civil injustice and detestable bigotry, as to lead him to oppose Mr. Pierce because he failed in his upright and strennous exertions to redeem the New Hampshire Coustination. It was a that his course, was not tution. It may be that his course was not prompted by any peculiar desire to serve Catho-ics as such. That he stood only on the platform of Religous Toleration. So much the better, for The Agricultural Fair of the Philadelphia solit shows that he acted on a great constitutional ciety, which commenced at Rising Sun; on Thursprinciple, which rises above the mere personal or sectarian feelings of the hour. The idea of condemning Mr. Pierce because he lives in New than any previous exhibition for many years. struggle with Intolerance, would lead to strange conclusions. On the same principle you should condemn Fitzgerald and Emmet because they failed to emancipate Ireland from English tyran-ny. But if there be any who will not now support Mr. Pierce because he only gave his best, his purest exertions and failed, do they propose to They have certainly more self respect. When and where has Gen. Scott atoned for his letters published in 1844? He has written a letter of retraction in 1852. He loves the "rich brogue" of the Irishmen at Cleveland! Ah! indeed! Who is now to be most benefitted by these "latter day" senments, of General Scott, the adopted citizen or eral himself? Major Gen. Boott is unloubtedly a great soldier and a brave and pariotic man. But I remember that in 1848 and 844, when the Native American party threat

Then, while citizens feared for their lives and churches were consumed with infuriated mobs, General Scott was resident to the court of the cour writing letters to leading Natives, and also news paper publications in sustainment of that illiber il spirit which sought to stigmatize, to injure and o degrade a certain class in our society. Now there is no Native American party—no votes are to be had in that quarter—why should General Scott remain a Native American?— He accordingly affects so despise them, and prefers, under the teachings of Seward and dreeley, to take his chance among four or five nillions of voters of foreign birth.
